PART I
GENERAL INFORMATION

EASTERN ILLINOIS STATE TEACHERS COLLEGE

LOCATION

The Eastern Illinois State Teachers College is located at Charleston, the county seat of Coles County. Charleston is on the Big Four and Nickel Plate railroads and is connected with the Illinois Central Railroad at Mattoon and with Kansas and Paris by a motor bus line.

HISTORY

To provide more adequate facilities for the training of teachers for the public schools of the state the legislature by an act approved May 22, 1895, established the Eastern Illinois State Normal School. This by an act of legislature in 1921 became the "Eastern Illinois State Teachers College at Charleston." On September 7, 1895, the five trustees provided for in the act selected a beautiful forty-acre tract of land three-quarters of a mile south of the public square of Charleston. The citizens of Charleston bought the land and presented it to the state. The building was erected at a cost of \$180,000. The grounds have a good elevation and are shaded by many fine old trees.

December 2, 1895, the contract was made for the erection of the building. The cornerstone was laid on the afternoon of May 27, 1896. The building and grounds were dedicated August 29, 1899, and on September 12, 1899, the institution was opened to students.

During the first year there were nineteen members of the faculty and two hundred and forty students. At the end of the first year, June, 1900, four students were granted the diploma of the school upon completion of the course of study. In 1933 seventy-two students were graduated from the Junior College and sixty-five from the Senior College.

During the summer of 1901, a six weeks session was offered for teachers. From 1920-1932, the college offered a twelve weeks summer quarter. A mid-spring session of six weeks was offered from 1922 to 1929.

In 1907 the state legislature appropriated one hundred thousand dollars for a woman's building. This building was completed

and occupied in January, 1909. It has proved to be a distinct addition to the cultural value of the institution. In addition to providing a beautiful home for one hundred young women during their residence in Charleston, it has had a marked influence in establishing good standards of living, and has come to be the social center of college life.

In 1911 the state legislature appropriated seventy-five thousand dollars for a training school building which was completed in 1913 with the exception of the assembly room which it still lacks.

In 1907 the power of conferring degrees was granted to the institution by the state legislature. Courses leading to the degree of Bachelor of Education (B. Ed.) were announced in 1920.

In 1925 the state legislature appropriated one hundred seventy thousand dollars for a Practical Arts Building. This building, completed in 1929, is used for home economics (Smith-Hughes) and for industrial arts.

In 1931, a seventy-two acre tract of land was added to the campus through an appropriation of \$21,600 made by the Fifty-seventh General Assembly.

The institution has always stood for sound scholarship and has striven to inculcate in the minds of its students a sincere love for truth. One of the gratifying evidences that it is in a measure fulfilling its mission is the fact that so many of its students have gone on to higher institutions of learning the better to equip themselves for service.

PURPOSE

The function of the state in education extends of necessity to the training of teachers. A rational system of public education implies provision for securing efficiency in the teaching office. State Teachers Colleges are the natural outgrowth of a policy of public education. The state is the only agency competent to meet the demands for qualified teachers imposed by its own attitude toward the instruction of its people. The object of a State Teachers College is not to extend the earning power of one class of persons at the public charge. It is to give a culture and learning dedicated in a special way to the general welfare. It exists primarily not for the benefit of its students but for the benefit of the whole people. Such a conception is fundamental and determines questions of organization, courses of study, and methods of instruction in the State Teachers Colleges.

EQUIPMENT

GROUNDS.—The grounds comprise forty acres, including the campus proper, the forest plantation, and the athletic field. These grounds, laid out by Mr. Walter Griffin, one of the most skillful landscape gardeners in the country, are justly considered exceptionally beautiful. A natural grove and other fine trees, a pond, a wide stretch of green, many borders of shrubbery and perennials in the natural style present a succession of pictures throughout the year. In the main grounds are the tennis courts, the children's playgrounds, the athletic field for girls, and the school garden. The forest plantation, planted during the early years of the institution, now includes several acres of thrifty trees, much used in botanical and zoölogical studies. In the adjoining athletic field, one of the best among those of the small colleges of the state, are the baseball diamond, the football field, and the quarter-mile cinder track.

A seventy-two acre tract of land was added to the campus in 1931 through an appropriation of \$21,600 made by the 57th General Assembly. It is used for athletics and physical education. The house is used as a club house by the Men's Union.

MAIN BUILDING.—The main building is a three-story structure, three hundred twenty-three feet in length, built of rough Bedford stone. It is in the Norman style, with a tower which is the neighborhood landmark. In this building are offices, the library, the assembly room, music and art rooms, classrooms, and laboratories.

TRAINING SCHOOL BUILDING.—The training school building of smooth Bedford stone was completed (except the assembly room) in 1913 at a cost of seventy-five thousand dollars. It is placed conveniently near the main building, and besides the rooms for the elementary school it contains classrooms, a children's library, and a laboratory for high-school agriculture.

PEMBERTON HALL.—The legislature of 1907 appropriated one hundred thousand dollars for a woman's building and gymnasium—the first appropriation for a woman's building ever made in the state of Illinois. A fine stone structure was finished and occupied January 4, 1909. The building has met the fondest hopes of its most ardent advocates, and its value as a social center in the college and in setting good standards of living is well established.

Room, including heat and light, with table board and privileges of laundry, costs \$5.75 a week. For table board, \$4.00 a week is charged. Students are not required to furnish anything.

A deposit of \$5.00 is required for a reservation at Pemberton Hall. Reservation is filed at the Hall when deposit is received

and credited at the business office. Application blanks will be sent at the request of students.

The deposit is credited to the student as part of the first month's payment, but forfeited if the student cancels the reservation too late to have it used by someone else.

PRACTICAL ARTS BUILDING.—The Practical Arts Building, completed in 1929, at a cost of \$135,000 for the building and \$40,000 for new equipment, furnishes excellent facilities for students who wish to specialize in industrial arts and home economics for grade and high-school positions and for the preparation of teachers in these subjects for the Smith-Hughes Vocational Schools. Shops are provided for practice in all kinds of hand and machine woodwork, metal machine shops and automobile repair, sheet metal work, general metal, electrical construction and installation, printing and mechanical drawing. These shops are all well lighted and on the first floor of the building. The basement consists of classrooms, storage rooms, and locker rooms.

The home economics department occupies the entire second floor of this building. Here are food laboratories, sewing rooms, fitting rooms, a lecture room, a dining room, a unit kitchen, a foods classroom, offices, and reception room, all arranged for the greatest convenience and efficiency in teaching.

There is floor space of approximately 27,500 square feet in the building. The first floor occupies 12,700 square feet, the second floor 7,400 square feet, and the basement a similar amount.

MUSIC BUILDING.—The small Manual Arts building, south of the power house, is now used for the band and orchestra. Lessons are given here in band and orchestra instruments.

LIBRARY.—The library now contains about 40,000 books and pamphlets. The reference books, bound periodicals, and reserve books are shelved in the reading room. Here are also found the current numbers of almost two hundred periodicals, including, in addition to those of general interest, many devoted to special subjects. The books for general circulation are kept in the stack room. For grades lower than the seventh, schoolroom libraries are provided. The library has a dictionary card catalogue and the books are classified according to the Dewey decimal system. There is a large collection of classified pictures for use in all departments. Three librarians are in charge, giving necessary aid and instruction to students in the use of books. Lessons in the use of the library are required in all curricula as explained in the Description of Courses.

SCHOOL GARDEN AND GREENHOUSE.—An opportunity is given for seeing the work done by pupils of the Training School in

elementary agriculture. Small plots of ground are planted and cared for by the pupils under the direction of the teacher of agriculture and the teachers of the Training School. Connected with the children's garden are a model vegetable garden, a rose garden, and a garden for experimentation and exhibition purposes. All of these divisions are used for demonstrating the proper care of plants, the methods of propagation, crop rotation, and some of the principles of plant breeding.

An excellent four-room greenhouse contains many plants of unusual interest and serves as an important adjunct to the botanical laboratories.

Additional facilities for field observation and for obtaining laboratory materials are offered by a small lake and a forest plantation of six thousand trees within five minutes' walk of the biological laboratories.

LABORATORIES.—The botanical laboratories are well equipped for the training of high-school teachers.

The laboratory tables are so equipped that each student has a light at his desk. The plant collections include numerous specimens of all kinds of plants so that each student may have his own material for study and may become well acquainted with plants.

The mechanical equipment consists of about three thousand microscopic slides that are of the best workmanship; compound microscopes of modern construction; a good projection lantern with several hundred lantern slides of plants and their structures; numerous pieces of apparatus for the demonstration of the physiological processes occurring in plants; and microtomes for the cutting of sections of plant tissues for the preparation of microscopic slides.

The zoölogy and physiology laboratory has sufficient equipment so that forty-four students may work at the same time, each being supplied with a compound microscope, a simple microscope, and other equipment necessary for examining specimens. There are many preserved specimens of both local and foreign fauna, including marine animals. The accession numbers of these now run over 16,000. Most of these are preserved in formalin and alcohol, but there are nearly two hundred mounted birds and mammals and over three hundred skins of these types of animals. There are also many shells, corals, and thousands of mounted insects, and other dried specimens. There are ample facilities for keeping live animals. Many models and skeletons are used and also about sixty-five of the best charts obtainable. Over twenty-five hundred lantern slides are available for illustrative purposes.

The chemistry laboratory is well equipped with all apparatus needed for demonstration and for laboratory experiments. The tables are modern and give places for thirty-two students to work. An ample supply of analytic balances is provided.

The physics laboratory is equipped for experiments in all subjects of physics. It is well wired for electrical work. Wall galvanometers are provided for electrical measurements. Gas, water, and compressed air are available. A dark room is included for photometry and various studies in light. The equipment provides for both demonstration and laboratory work in all courses.

The high-school agriculture laboratory is supplied with tables, a set of apparatus for testing milk and its products, and apparatus for soil studies.

EXPENSES

Tuition is free to college students who are to teach in the public schools of Illinois for a period equal to the time spent in this school. Others in the college pay tuition at the rate of \$25.00 a quarter (twelve weeks).

At Pemberton Hall, room, including heat and light, with table board and privileges of laundry, costs \$5.75 a week, payable monthly in advance (\$23.00 at the beginning of each month). For table board, \$4.00 a week is charged, payable monthly in advance (\$16.00 at the beginning of each month). Students are not required to furnish anything.

Fees for each quarter (12 weeks) are \$11.50, distributed as follows:

Registration	\$5.00
Book rent	1.50
Recreation fee	1.00
Athletic Association	2.15
Warbler75
College News75
Band35

Total, College \$11.50

There is no refund of fees in case a student withdraws his registration after one week.

Fees for materials used are paid in laboratory science courses and in courses in art, home economics, and industrial arts except in theory courses. Completed projects are the property of the student.

For piano or voice lessons a fee of \$5.00 a quarter is paid. Two lessons are given each week.

Class instruction in violin, clarinet, cornet, or other instrument is free to members of the band or orchestra.

A maximum fee of \$5.00 a quarter is charged for the rental of the instrument.

Holders of Lindly Scholarships, received at the time of graduation from the eighth grade, do not pay the registration fee (\$5.00). Regular quarterly fees for valid Lindly Scholarship students are \$6.50 in the college.

The student must present the Lindly Scholarship at the time the fees are paid in order to be exempt from the payment of the registration fee.

PENALTIES

An additional fee of \$1.00 is charged if a student fails to complete his registration on the day or days appointed for registration. An additional fee of \$1.00 is charged if a change in programme is made after the third day of the quarter.

An additional fee of \$1.00 is charged if the student's record at the textbook library is not clear at the close of each quarter.

The original transcript of a student's record with one carbon copy will be mailed upon request without cost to the student; but a charge of \$1.00 is made for additional copies of this transcript sent later.

PLEDGE

"In consideration of free tuition in the Eastern Illinois State Teachers College, I pledge to teach in the public schools of Illinois for a period equal to that covered by my attendance at the Eastern Illinois State Teachers College; and I agree to report annually to the president of the college the number of months taught in Illinois until this pledge is fulfilled. If I do not teach the required time in the public schools of Illinois within five years after leaving college, I promise to pay to the Eastern Illinois State Teachers College at the end of that period tuition at the rate of \$25.00 for each quarter (twelve weeks)."

BOARD AND ROOM

Board and room can be obtained in private families for from \$5.00 to \$6.00 a week. Room without board can be obtained for from \$1.50 to \$2.25 a week for each student (two students sharing the room).

At Pemberton Hall, room, including heat and light, with table board and privileges of laundry, costs \$5.75 a week, payable

monthly in advance (\$23.00 at the beginning of each month). For table board, \$4.00 a week is charged, payable monthly in advance (\$16.00 at the beginning of each month). Students are not required to furnish anything.

A deposit of \$5.00 is required for a reservation at Pemberton Hall. Reservation is filed at the hall when deposit is received and credited at the business office. Application blanks will be sent at the request of students.

The deposit is credited to the student as part of the first month's payment, but forfeited if the student cancels the reservation too late to have it used by someone else.

The college maintains a Housing Bureau in order to assist students in finding the best rooms obtainable. Householders who have rooms to rent to students are registered with the bureau; the rooms are inspected and when approved are put on the list of available rooms. Students may obtain this list by writing to the Housing Bureau or may come for consultation on arrival at the college.

SCHOLARSHIPS

ARMY AND NAVY SCHOLARSHIPS.—Men who served in the United States Army or Navy in the Great War and who were residents of Illinois at the time of entering the service are exempt from the payment of tuition and registration fee.

LINDLY SCHOLARSHIPS.—"In order to equalize the advantages of the State Normal Schools" encourage attendance and thereby increase their usefulness, the state legislature passed the Lindly Bill in 1905. This act provides that "there shall be awarded annually to each school township or fractional township a scholarship which shall entitle the holder thereof to gratuitous instruction in any State Normal School for a period of four years."

The law provides also that "The county superintendent shall receive and register the names of all applicants for such scholarships, and shall hold an examination, or cause an examination to be held, in each township, for the benefit of graduates of the eighth grade."

Holders of Lindly Scholarships do not pay the registration fee (\$5.00). Regular quarterly fees for Lindly Scholarship students are \$6.50 in the college.

THE FLORENCE VANE SKEFFINGTON SCHOLARSHIP.—In memory of Florence Vane Skeffington, whose rare abilities and personality gave character to the English work of this school for seventeen years, the Florence Vane Skeffington Scholarship is awarded annually to a student whose gifts and attainments promise distinction in the teaching of English.

The award for 1933-34 was given to Miss Susie Phipps, a senior in the English-Latin curriculum and a high honor graduate of the Teachers College High School.

The award for 1934-35 will be announced at Commencement, June 4, 1934.

THE LIVINGSTON C. LORD MEMORIAL FUND.—The Alumni Association of the Teachers College is sponsoring the accumulation of a fund to establish a scholarship in memory of

LIVINGSTON C. LORD
President, 1899-1933

This scholarship is to be awarded annually at Commencement from the interest on the fund to a junior or senior student whose character, scholarship, and skill in teaching promise service of distinction in the field of education.

LOAN FUNDS

THE STUDENT LOAN FUND.—The Student Loan Fund of the Eastern Illinois State Teachers College makes it possible for a deserving student in the second half of the course to borrow, at a low rate of interest on a personal note, a sum of money that will help him to remain in college and complete the course. A grade point average of 1.5 (half way between C and B) is required. Students find such temporary assistance of great advantage. The foundation of this fund was secured from admission fees to the Senior Class play and to the Training School entertainment, given during commencement week.

Under the will of the late Dr. W. D. Morgan, of Charleston, there is given to the Student Loan Fund the annual income from about six thousand dollars, which is one-seventh of the estate. An additional amount will be received at the death of certain heirs.

THE ADELIA CAROTHERS FUND.—A fund known as "The Adelia Carothers Fund" has been established by Mrs. Ida Carothers Merriam and Mr. Charles G. Carothers in memory of their mother. This fund is to be loaned to young women students of high character and scholarship during the last half of their course. The student to whom this loan is made is distinctly honored.

STUDENT ACTIVITIES

ENTERTAINMENT COURSE.—For several years the college has maintained during the regular year an entertainment course in order to bring to the students entertainments of genuine interest and merit. The course is supported by the students' activities

fee and by the sale to others of single admission tickets. The presidents of the Student Council, the Men's Union, and the Women's League are *ex-officio* members of the Entertainment Course Committee.

Under the auspices of this course such attractions as the following have been presented: United States Marine Band, Minneapolis Symphony Orchestra, Cleveland Symphony Orchestra, St. Louis Symphony Orchestra, Flonzaley Quartette, Coburn Players, Ben Greet Players, Tony Sarg Marionettes, Kreutzberg Dancers, Carl Sandburg, Stuart Chase, Vienna Saenger Knaben.

The entertainment course for 1933-1934 was as follows: Kryl's Symphonic Band.

The Jitney Players in Dion Bouicault's melodrama, *The Streets of New York*.

Dr. Gordon J. Laing of the University of Chicago, lecture, *A Liberal Education*.

An all college cast in Philip Barry's comedy, *Holiday*.

Dr. William F. Ogburn of the University of Chicago, lecture, *Social Trends in America*.

The Paris Instrumental Quintet.

Elizabeth Pierce and her company in a programme of interpretive dancing.

Utica Jubilee Singers.

DRAMATICS.—A Director of Dramatics supervises all dramatic work for public presentation. Under the plan adopted, the high school and the college constitute two dramatic organizations, with elected student officers. The college organization is called "The Players." This organization studies the drama as it appears on the modern stage and experiments with the production of plays. Try-outs for the major productions for public performance are open to all students of the college. Other programmes are presented during the year if suitable talent is available.

The ends in view under this plan are as follows:

1. To make possible the development of dramatic talent through a period of years rather than through the period of rehearsal for one play.
2. To attempt to maintain as nearly uniform standards as possible and to build up higher aims as progress is noted.
3. To encourage familiar acquaintance with the artists of the theatre of all times.
4. To establish a fund for permanent equipment.

THE TEACHERS COLLEGE NEWS.—An eight-page weekly, "The Teachers College News," published by a board of student editors

with a faculty adviser, is issued on Tuesdays. It is supported by the students' activities fee. In addition to announcements, reports of games, local news, and alumni notes, it contains editorials of high value in influencing college spirit as well as student spirit. Some class work of merit appears occasionally in this paper. It deserves the support of students, teachers, and alumni.

The class of 1924 left, as a class memorial, equipment for a room devoted to the uses of "The News" and the "Warbler."

RECREATION.—A student recreation committee has charge of student recreations which are not solely class affairs. This committee consists of the presidents of the Student Council, the Women's League, and the Men's Union, with a faculty member appointed by the president of the college on the recommendation of these presidents. Other members of the committee may be chosen by this committee as they may see fit.

Class affairs are under the supervision of the faculty advisers of each class. The students are permitted to have parties Friday or Saturday evenings in the gymnasium. In the spring and fall, there are picnics in the neighboring woods. These activities are chaperoned by members of the faculty.

MATHEMATICS CLUB.—The Mathematics Club was organized in the fall quarter of 1927-1928 to further interest in that field of knowledge and to make it possible for students to discuss some of the phases of mathematics which are not included in regular classes. Anyone who is interested and has had one year of algebra and one of geometry is eligible to membership. During the first year the club held eight meetings, one of which was an old-time ciphering contest. The club has a membership of about fifty students and teachers.

E. I. VARSITY CLUB.—The E. I. Varsity Club was organized in the fall quarter, 1927, by the letter men of the college for the purpose of promoting in all possible ways the betterment of athletics at E. I. Meetings are called by the president. Any student in the college who has earned an E. I. monogram is eligible to belong to the club as an active member and any student who has earned the E. I. monogram, but is not in college, is eligible to join the club as an associate member. All members must first be initiated into the club before becoming regular members. The initiation for new members is held during the spring quarter of each school year.

WOMEN'S ATHLETIC ASSOCIATION.—The Women's Athletic Association was organized in the spring, 1932, by the women of the college. Its motto is: "A girl for every sport and a sport for every girl." Any student in the college who has passed a satisfactory physical examination is eligible to membership in

the association. The initiation for new members is held at the beginning of each quarter. A girl may join as many clubs as her time permits. Clubs have been formed in archery, basketball, fencing, hiking, hockey, rifle, tennis, and volley ball. Very definite requirements must be met in a sport as well as in scholarship to earn the college or club insignia. Letters are awarded at the annual banquet of the association in the spring quarter.

THE FORUM.—The Forum is a discussion group of students and faculty members who are especially interested in current economic, political, and social problems. Meetings are held bi-weekly throughout the college year; active membership is limited to those who have prepared and presented a paper of merit on some related topic.

PHI SIGMA EPSILON.—The Beta Chapter of Delta Lambda Sigma, organized in the winter quarter of 1927-1928, has been incorporated in Phi Sigma Epsilon, a national fraternity for Teachers Colleges.

The purpose of the organization is to maintain a high standard of scholarship, to promote school spirit, and to cooperate actively with the college in every possible way.

The fraternity has a house in which the members may live and enjoy with one another a true feeling of fellowship.

KAPPA DELTA PI.—Beta Psi Chapter of Kappa Delta Pi, an international honor society in education, was installed on January 2, 1931. Kappa Delta Pi, founded at the University of Illinois in 1911 under the leadership of William Chandler Bagley, has chapters in ninety-one colleges and universities. Students are elected to membership primarily upon the basis of high scholarship, good character, and promise of success in teaching. Election to membership in this organization is one of the highest honors that can be bestowed upon a student.

LE CERCLE FRANCAIS.—Le Cercle Francais was organized November 6, 1930. Membership is open to students who have had two or more years of high-school French or two quarters of college French.

The purpose of the club is to promote the interests of French in the school, to improve the conversational ability of the students, and to add to their information concerning French customs, life, and literature.

Meetings are held on alternate Thursday evenings. The programmes include papers prepared by the students, short plays given in French, and French games and songs.

DER DEUTSCHE VEREIN.—The German club was organized in the fall of 1933-34. Those who have had one or more years of

German, or who have passed one semester creditably, are eligible for membership.

Meetings are held bi-monthly. The programmes are varied, consisting of German games, songs, short plays, dialogues, or talks on German life and customs.

SCIENCE CLUB.—The Science Club was organized in the fall quarter, 1930, by students in the botany, zoölogy, physics, chemistry, and geography departments in order that all may know something of the work in other scientific fields. Papers are presented and time is allowed for questions and for discussion. The membership is not limited to these departments. Anyone interested in science may belong. Meetings are held bi-monthly throughout the year.

WRITERS CLUB.—The Writers Club, now including Sigma Tau Delta, was organized in 1930-1931 for students interested in writing. Members are admitted on the basis of manuscripts submitted in "try-outs" announced from time to time. This club was installed on February 15, 1932, as Omicron Gamma Chapter of Sigma Tau Delta, the national professional writers society. Only honor students in English may become active members of this chapter, which is limited by national constitution to twelve members; but associate and local members are chosen from any candidates who show marked ability in written expression.

SIGMA DELTA.—This is a local journalistic club. Meetings are held bi-weekly. The organization is interested in stimulation of student opinion through the columns of *The Teachers College News*. Membership is elective and is limited to those on the *News* staff who have displayed an active and constructive interest in student problems.

HOME ECONOMICS CLUB.—The Home Economics Club was organized in the fall of 1932-33 and was affiliated with the State and National Home Economics Associations. Anyone whose major subject is home economics is eligible to membership. The aims of this organization are to stimulate interest in home economics, to give more opportunity for leadership, and to become acquainted with persons prominent in the field of home economics.

INDUSTRIAL ARTS CLUB.—The Industrial Arts Club was organized in the fall of 1932. Its purpose is the mutual advancement of its members. The club meets on the first and third Fridays of each month. All students in the Industrial Arts Department are eligible to membership.

EPSILON PI TAU.—The Iota Chapter of Epsilon Pi Tau, National Honorary Industrial Arts Fraternity, was established in

May, 1933, with twelve charter members. Only students ranking highest in the Industrial Arts Club and in scholarship are admitted to membership. The fraternity holds its meetings on the second Friday of each month in the Practical Arts Building. It plans to hold at least one initiation a year, usually in the spring. In 1933, at a summer initiation, eleven members were added. Membership in the fraternity is a high honor for a student whose major subject is industrial arts.

THE ILLINOIS TENTH DISTRICT ROUND TABLE.—On the fourth Friday of each month industrial arts teachers from adjoining counties meet in the Practical Arts Building for professional advancement. There are usually four speakers chosen either from the field of industrial arts or from that of public school administration. All industrial arts students are invited to these meetings where they hear at first hand the problems of the elementary and secondary school teacher.

GEOGRAPHY CLUB.—The Geography Club, organized in the year 1933-34, meets on alternate Wednesday evenings to discuss topics of interest to students of geography for which there is no place in regular class work and to keep in touch with current topics and events which have geographical significance.

THE MEN'S UNION.—All men students of the college, upon registration, automatically become members of the Union, which was organized in the year 1930-31. Membership entitles the holder to attendance at and voting in all business meetings, privileges at the house, and attendance at any social function sponsored by the Union. After graduation a member is entitled to an alumni membership which gives him club house privileges, attendance at all social functions, and any other privileges granted by the Union.

The purposes of the Union are to create a feeling of unity among the men of the college, and to promote all activities which concern them.

The officers of the Union are the president, elected by the entire organization in a general election, and the executive board consisting of eight men of the college. The four class presidents are members of the board and the men of each class elect one member of their class to represent them on the board.

The Lair is maintained by the Men's Union and is open to all men of the college. The rules governing this club house are made by the executive board of the Men's Union and a resident house manager sees that they are observed.

THE WOMEN'S LEAGUE.—Every woman upon matriculation in the college becomes automatically a member of the Women's

League, which was organized in the year 1930-31. Membership in the League entitles the holder to attendance at and voting in all business meetings and attendance at any social functions sponsored by the League.

The object of the League is to promote solidarity among the women of the college by uniting them for social purposes and for constructive effort.

The governing power of the League is vested in an executive council of nine members known as the "Council of Nine." The president is elected from the League at large and may be from any class. Each class elects two of its members to represent them in the council.

STUDENT PUBLICATIONS.—Student publications are in charge of a committee consisting of the president of the Student Council, the advisers and editors of the "Warbler" and of the "College News" with a faculty member appointed by the president of the college as chairman.

ATHLETICS.—All athletic activities are conducted by the Athletic Council. This council is composed of two members of the faculty, appointed by the president; two students, elected by the students; and the athletic coach. An athletic fee is charged each college student and each high school student as part of the students' activities fee. This fee is payable at the beginning of each quarter. It entitles the student to free admission to all athletic contests in which Teachers College or High School teams take part on the home grounds, and also a vote for the student representative on the Athletic Council. The Teachers College and the High School have separate teams and play independent schedules. The Eastern Illinois State Teachers College is a member of the Illinois Intercollegiate Athletic Conference, and the High School is a member of the Illinois High School Athletic Association.

ATTENDANCE AT CHURCH.—Each student is expected to attend regularly the church of his choice, or that which meets the approval of his parents. The pastors and members of the different churches have made the students at home in the churches and Sunday schools. The Teachers College encourages the students to form and sustain intimate relations with the churches.

THE STUDENT COUNCIL.—The Student Council was organized in the spring quarter of the year 1919-1920 as a means of communication between the faculty and students and a way by which the students may aid in school discipline and in the general control of college affairs.

The Council consists of eleven members: four from the senior class, three from the junior class, two from the sophomore

class, and two from the freshman class. The term of office is one year. Elections take place in the respective classes at the second class meeting of the regular school year. The constitution provides for a president, vice-president, secretary, treasurer, and historian.

A student board of control, established in the spring quarter of the year 1925-1926, was merged with the Student Council in the fall quarter, 1928-1929.

REGULATIONS FOR STUDENT ACTIVITIES

1. No extra-curricular organization, club, sorority, or fraternity may be organized without recognition by the faculty committee on student activities.

2. All organizations must file a copy of their constitution and by-laws with the faculty committee.

3. Any organization whose activities are suspended by the president of the school must apply to the faculty committee for reinstatement.

4. No organization may have a business or social meeting or a rehearsal on the campus without a faculty adviser present.

5. No student may hold more than one of the following offices in student organizations:

Class president,
Editor of the Warbler or News,
Business Manager of the Warbler or News,
President of a fraternity,
Treasurer of any student organization.

A student elected to one of these major offices in student organizations may not hold more than one other office in class or other student activity.

All officers must maintain the academic standing required for admission to student teaching.

All organizations must file a list of all officers, as soon as they are elected, with the chairman of the faculty committee.

6. Any student falling below the academic standing required of athletes may be asked to withdraw from any organization.

ALUMNI CLUB

The Charleston Club of Chicago is an organization of former students. This club meets occasionally in a very pleasant way, and all former students or teachers, living in or near Chicago, will be notified of these meetings if they send their names to the president, Miss Grace Reininga, 320 Home Avenue, Oak Park, Illinois.

THE ALUMNI ASSOCIATION

The Saturday preceding commencement is Alumni Day with morning exercises at ten o'clock.

The officers for 1933 to 1934 are: Mr. Ralph F. Evans, '32, President and Chairman of the Executive Committee; Miss Emily Dowling, '26, Vice-President; Mrs. Opal Bensley Stanberry, '16, Secretary and Treasurer.

Executive Committee

Mr. Ernest N. Freeman (term expires in 1934).
Mr. Ferdinand Homann (term expires in 1934).
Mr. Luther J. Black, '31 (term expires in 1935).
Mrs. Genelle Voigt Jackson, '29 (term expires in 1935).
Miss Grace Geddes, '06 (term expires in 1936).
Mr. Bruce Corzine, '13 (term expires in 1936).

TEACHERS APPOINTMENT COMMITTEE

To assist school officers in securing capable teachers and to help graduates in securing desirable positions the Eastern Illinois State Teachers College has an appointment committee. Its services are free both to teachers and to school officers. It is very desirable that graduates of the college keep the committee informed of their location and position, so that the committee may make intelligent recommendations to superintendents desiring experienced teachers.

THE CERTIFICATING LAW

I. The completion of the freshman year in any curriculum admits the student to examination for a limited elementary certificate.

II. The completion of the two-year grade curriculum gives a limited elementary certificate.

III. The completion of the first two years in any curriculum gives a limited elementary certificate provided the student's credits include two quarters of work each in practice teaching, history (or social science), and mathematics (or natural science).

IV. Graduation with the degree gives a high-school certificate.

If the student has taught successfully for four years he may have also a supervisory certificate.

NOTE: For certification and for graduation the Eastern Illinois State Teachers College requires that not more than one-fourth of the student's grades shall be D.

**ESSENTIAL FEATURES PERTAINING TO LIMITED CERTIFICATES PROVIDED FOR IN THE CERTIFICATING LAW
ENACTED BY THE FIFTY-SIXTH GENERAL ASSEMBLY, 1929**

Analysis of Main Features of Certificates	NAME OF LIMITED CERTIFICATE				
	Super- visory	High School	Special	Kinder- garten Primary	Elemen- tary
(1)	(2)	(3)	(4)	(5)	(6)
I. Scope of Validity:					
(a) Duration of time.....	4 yr.	4 yr.	4 yr.	4 yr.	4 yr.

(a) College semester hours.....	60	60	30	30 ³	30 ⁵
(b) Teaching experience	4 yr.	0	0	0	0
(c) Number of subjects written.....	5	10	3 or more	3	18
(d) College semester hours for renewal—					
1. First renewal	90	90	60 ¹	60 ²	60
2. Second renewal	120	120	60 ¹	60 ²	60
3. Third renewal, etc.....	120	120	60 ¹	60 ²	60
IV. *Conditions of Exchange for Life Certificate:					
(a) Years of successful experience.....	Super- vision 4 yr.	4 yr.	4 yr.	4 yr.	4 yr.
(b) College semester hours required....	120	120	120	90	90
(c) College semester hours in education.	15	Indefinite	Indefinite	Indefinite	Indefinite
(d) Name of certificate received.....	Life super- visory	Life high school	Life high special	Life Kinder- garten Primary	Life elemen- tary

¹ 120 hours in each subject named in certificate.

² Kindergarten-primary training.

³ 5 hours in practice teaching.

⁴ Evidence of successful teaching and professional growth are prerequisite to the renewal of all certificates.

⁵ 5 hours in education.

⁶ Life certificate may be obtained by successful examination and preparation of thesis if applicant fails in slight measure to meet hours of training required for exchange of limited certificate.

PART II
INSTRUCTION

ORGANIZATION

The Eastern Illinois State Teachers College is a Teachers College in the American Association of Teachers Colleges and a Senior College in the North Central Association of Colleges and Secondary Schools by which it is accredited as a degree-granting institution.

The Training School includes an accredited four-year high school (grades IX-XII) and an accredited elementary training school (grades I-VIII).

DIVISION OF THE YEAR

The regular college year consists of three quarters of twelve weeks each. Saturday is taken as the weekly holiday.

A summer quarter of twelve weeks was offered 1920-1932. A six weeks term was offered in the summer of 1933. The summer term of 1934 begins on June 11 and closes on July 20.

The subjects offered are designed to meet the needs of:

1. Teachers of experience who wish to advance their professional or academic knowledge.
2. Supervisors and department teachers.
3. Those who are preparing to teach in schools that follow the Illinois Course of Study.
4. Those who wish to take regular work with a view to graduation from the Junior College with a diploma or from the College with a degree.

ADMISSION REQUIREMENTS

1. *To the Senior College:* Graduation from the two-year curriculum of a recognized Teachers College or of the Junior College of a recognized college or university.

2. *To the Junior College:* Graduation from a recognized four-year high school.

3. *To the High School:* Graduation from the eighth grade admits a student to the ninth year which is the first year of the high school. High-school students enter the year which the units they have already earned give them the right to enter.

4. *High-school records and records of work in other colleges must be sent to the Registrar. A student with high-school or other record should have a complete copy of the record sent by the principal of the school to the Registrar of the Teachers College. This should be done at least two weeks before the date of entering. No student will be classified until his record is received.*

A registration permit is filed at the office when the student's application for admission and his record have been checked and filed. Application for admission blanks are sent on request.

Lindly scholarships must be presented at the cashier's office on registration day.

GRADUATION

The degree of Bachelor of Education (B. Ed.) is conferred upon those who complete a four-year curriculum; a diploma is granted to those who complete the two-year curriculum for preparation of teachers for the grades. Four-year curricula prepare teachers for high school, for special grade work, and for positions as principals, supervisors, and teachers of special subjects. *A year's resident work is required for a diploma or degree.*

Ninety-six quarter hours are required for a diploma and one hundred ninety-two for a degree. Credit earned in physical education, library use, dramatics, glee club, quartette, orchestra, or band is in excess of the total required for graduation.

For the degree, one-third of the student's credits toward graduation must be in courses not open to freshmen and sophomores. This requirement is in accordance with the standard of the American Association of Teachers Colleges.

The University of Illinois admits to full graduate standing all graduates of the Teachers College who present twenty semester hours of content courses in one major academic subject in addition to education.

Students planning to teach in high schools should see that their records satisfy the requirements of the Illinois Examining Board and of the North Central Association.

The records of those who expect to complete a curriculum in a current year are checked at the beginning of each quarter and on April 1. A statement of the courses necessary for the completion of his work is given to each of these students in the fall quarter and is used by him in making his programmes for succeeding quarters. The list of candidates for graduation is based on the checking of April 1. A student who is not more than eight quarter hours behind the class at that time may participate in commencement exercises with the class and receive his diploma or degree at the close of the summer term if he completes the work by that time. It is possible to earn eight quarter hours in a summer term.

SCHOLARSHIP

Grades are expressed in letters as follows:

A, Excellent	3 grade points
B, Good	2 grade points
C, Fair	1 grade point
D, Poor, but passing*...	0 grade points
E, Condition	0 grade points (incomplete work)
F, Failure	—1 grade point

*Passing, but not accepted toward graduation or toward admission to practice teaching if more than one-fourth of the student's courses receive a grade of D.

I. Graduation Honors. Graduation with high honors requires that a student receive a grade of A in three-fourths of his work and B average in the rest.

Graduation with honors requires a grade of A in one-half of the student's work; B or higher in one-fourth of his work; and C average in the rest.

Graduation honors are noted on the diploma, announced at commencement, and published in the next issue of the annual catalogue.

II. Scholarship Honors. Scholarship honors on the same basis as graduation honors are announced for each quarter in the month after the beginning of the next regular quarter; in December for the fall quarter; in March for the winter quarter; in October for the preceding spring quarter and year.

The announcement is posted on the bulletin board and printed in the "Teachers College News."

III. Admission to Practice Teaching. 1. For registration for practice teaching in any quarter in any curriculum not more than one-fourth of a student's credits may have a grade of D; that is, three-fourths of his courses must have a grade of C or above. This is the graduation requirement in the two-year curriculum.

2. Sophomores in four-year curricula with B average (two grade points) in the freshman year may be admitted to Teaching 30 before the spring quarter if they need to fulfil legal requirements for the limited elementary certificate by the end of the sophomore year.

3. Sophomores in four-year curricula with average of 1.5 to 1.9 grade points (one-half grade point or more above C) may be admitted to Teaching 30 in the winter quarter if they plan the year's programmes to include English 26, Arithmetic 20 and Geography 20, from the two-year grade curriculum and need to

fulfil legal requirements for the limited elementary certificate by the end of the sophomore year.

4. Sophomores in four-year curricula with lower than 1.5 average in the freshman year are required to postpone Teaching 30 to the junior year. See also III, 1, under "Scholarship."

IV. Certification Requirement. The institutional credit blank for certification is not sent to the Illinois Examining Board if more than one-fourth of a student's grades are D. The blank requires "faculty recommendation of ability to teach." This recommendation is withheld if more than one-fourth of a student's grades are D.

V. Graduation Requirement. C average is required for graduation from four-year curricula and not more than one-fourth of the student's grades may be D. This means that a student must have as many grade points above C (1) as he has grades of D (0). This regulation will go into effect with the class of 1935. See III for graduation requirement for the two-year curriculum.

VI. Extra Work. No freshman in a four-year curriculum may register for extra work in his first quarter.

No student may register for extra work in the first quarter in which he is taking practice teaching.

No student whose average is below B in the preceding quarter may register for extra work.

VII. Probation. 1. A student who has three grades of D, or the sum of whose grade points is less than two (C, 1; D, 0; F, —1) in any quarter is on probation in the next quarter in which he is in attendance and is reported as on probation here if he has his record sent to another school.

2. A student who has a probation record for two successive quarters is excluded from attendance in the following quarter and is reported as "Dropped on account of low scholarship" if his record is transferred to another school.

3. A student who fails in one course and has lower than C average in the three remaining courses of that quarter is not permitted to register for more than three courses in the following quarter. Exception: Failure in English 20 and 21.

VIII. Exclusion. A student failing in three courses, twelve quarter hours, in any quarter or in one-half of his work, eight quarter hours, in each of two consecutive quarters, is dropped from the college.

The grade F (failure) is recorded against a student who drops, after the first month, a course in which he is failing; but this does not apply to a student who is taking work to the amount of twenty quarter hours.

A student whose class work is very poor or who is frequently absent may be excluded from the privilege of taking the final examination. A grade of F (failure) is recorded against him.

EXTENSION WORK

The Teachers College is glad to offer such extension work as its facilities permit. It is especially urged that such aid be sought as the college may be able to give in improving present teaching in the elementary schools. A skillful teacher in visiting schools and in talking with teachers is able to be of great assistance to those of less experience. This suggestion contemplates giving help in those subjects that make up the greater part of the elementary school curriculum, namely: reading, language and grammar, arithmetic, geography, history, drawing, and music.

No extension work is offered for credit toward graduation.

CURRICULA

I. A Two-Year Curriculum, 96 quarter hours, leading to a diploma and planned for preparation of teachers for the grades. The diploma entitles the holder to a limited elementary school certificate without examination. The completion of the first year's work admits the student to an examination for a limited elementary certificate.

II. Four-Year Curricula, 192 quarter hours each, for preparation of the following:

1. Elementary Grade Teachers.
2. High-School Teachers and Teachers of Special Subjects:
 - A. Art and Design.
 - B. English.
 - C. Latin.
 - D. Geography.
 - E. History and Social Science
 - F. Home Economics (Smith-Hughes)
 - G. Industrial Arts
 - H. Mathematics
 - I. Music (Public School)
 - J. Science (Biological: Botany or Zoölogy or both)
 - K. Science (Physical: Physics or Chemistry or both)

CREDIT

The unit of measure, beginning with the year 1929-30, is the quarter hour, representing one hour a week of prepared work for twelve weeks when the student load of prepared work is sixteen hours a week. It is equivalent to two-thirds of a semester hour.

A year's work is equivalent to 48 quarter hours (32 semester hours) of prepared work. A year's work in one subject is equivalent to 12 quarter hours (eight semester hours).

Piano or voice work may be used for elective credit to the extent of 12 quarter hours (four years of work) with a minimum of 6 quarter hours in each. No student may count toward graduation more than 12 quarter hours of instrumental or voice work.

Credit is allowed for physical education, and for Library 20 at the rate of one quarter hour for each quarter's work.

Credit is allowed for dramatics, glee club, quartette, orchestra, and band at the rate of one quarter hour to those reported to the office for such credit at the close of each quarter by the directors of these organizations who decide the conditions under which credit is allowed or withheld in each case.

Credit earned in required physical education, library use, dramatics, glee club, quartette, orchestra, or band is in excess of the 96 quarter hours required for a diploma and of the 192 quarter hours required for a degree. The credit is recorded on the student's permanent record card and may play an important part when he is an applicant for a position.

A statement of the amount of credit is included in the description of each course.

NUMBERING OF COURSES

Courses numbered 20-29 are (with a few exceptions) required in a curriculum in the Junior College; courses numbered 30-39 are elective courses for those in the Junior College; courses numbered 40 or above are Senior College courses.

MAJOR AND MINOR SUBJECTS

In four-year curricula for graduates of four-year high schools, a student in a special curriculum takes 48 quarter hours of work in a major subject and 24 quarter hours in a minor subject, in some cases specified by the department of the major subject and in other cases left to the student's choice, but the courses in the minor subject must constitute two years' work

in some one department and the courses chosen must be satisfactory to that department and to the department of the major subject. Students will consult the department of the major subject as to choice of minor subjects and of electives.

Students taking mathematics as the minor subject take Algebra 31, 32, Trigonometry 33, Analytics 34, 35, Geometry 28.

In music only public school music may be used as the minor subject, the courses required being Music 30, 31, 32, 33, 34, 35.

In English, English 30, 31, 34, 35, 36 (or 43), 37 (or 39) may be used as the minor subject. English 46, 47, 48 may be used by juniors or seniors for credit toward the English for minor subject.

ELECTIVES

There are two groups of electives: one for those in the Senior College, numbered 43 or above and one for those in the Junior College, numbered 30-39. Students should consult the department of the major subject as to choice of electives and of minor subjects.

Music 30, 31, 32 or Music 33, 34, 35 may be used for elective credit.

DESCRIPTION OF CURRICULA

I. TWO-YEAR CURRICULUM

96 quarter hours

FOR PREPARATION OF TEACHERS FOR THE GRADES

FRESHMAN YEAR

Education 20, 21, 22	Reading 24
English 20, 21, 24 or 22	Drawing 24
Arithmetic 20, 21	Penmanship 20
Botany 20 or Zoölogy 23	Library 20
Geography 20	Physical Education

SOPHOMORE YEAR

Education 23, 24	Geography 21 and English 26
Teaching 20, 21, 22	or English 34 and
History (two consecutive courses)	Education 25
Music 24	Hygiene 20
Industrial Arts 24 or 25	Physical Education

Notes: 1. The completion of the work of the freshman year admits to examination for a limited elementary certificate.

The completion of the sophomore year in this curriculum entitles the student to the diploma of the Junior College and to a limited elementary certificate.

2. Each subject has four fifty-minute periods a week unless otherwise indicated by a number in parenthesis; but Botany 20 and Zoology 23 have six fifty-minute periods; Art and Industrial Arts require eight periods a week for full credit.

Notes: 1. Students are advised to use their electives so as to have more than one minor subject (teaching subject).

2. Numbers identify the course in the description of courses. Numbers in parenthesis after Physical Education and Library 20 indicate the number of periods a week.

II. 1. FOR PREPARATION OF TEACHERS FOR ELEMENTARY GRADES

Freshman Year

Follow Sections I, II, III, IV, or V of the freshman year in the two-year curriculum for preparation of teachers for the grades.

Sophomore Year

Follow Section I (lower grades) or II or III (upper grades) of the sophomore year in the two-year curriculum for preparation of teachers for the grades.

Note: Programmes should be planned by the dean.

Junior and Senior Years

Major subject	36 quarter hours
Minor subject	24 or 16*
Laboratory Science	12 or 8*
English 43, 44, 45.....	12
Education 44, 47.....	8
Practice Teaching 41G-48G.....	8 or 12
Elective	0 or 4*

 100 or 96*

*If the science is botany or zoology, Botany 21 and 22 or Zoology 21 and 22 complete the requirement, but Zoology 20, 21 must be taken if the student had Zoology 23 in the Junior College.

If history is the minor subject, eight quarter hours of sophomore history count toward this requirement.

II, 2, G. INDUSTRIAL ARTS

Notes: 1. An academic minor subject is required. This may be: English, foreign language, geography, history, mathematics (Algebra 31, 32, Trigonometry 33 for the first year; Analytics 34, 35, Geometry 28 for the second year), or science (botany, zoölogy, physics, or chemistry).

2. Some substitution of academic courses for industrial arts courses will continue to be allowed to seniors.

TRAINING SCHOOL

ORGANIZATION AND ADMISSION.—The Training School consists of the Elementary School of eight grades, and the High School of four grades. Below the ninth grade the number of pupils who can be admitted is limited. Pupils desiring admission are registered, then admitted in order of registration when vacancies occur.

Pupils once admitted to the school for the regular school year retain their places until completing the course unless they are unreasonably irregular in attendance or fail to appear on the opening day of the school year without notice to the director of their intention to appear later.

In grades below the ninth, a fee of seventy-five cents is charged on the opening day of each of the three terms of the year.

TRAINING TEACHERS.—In the first nine grades the immediate direction of the work of each grade and the responsibility for its progress is with the training teacher of the grade. The training teachers, with the director, plan the work of their grades, discuss with the student teacher their plans for teaching the different subjects, do enough of the teaching to keep the progress of the pupils at least up to the standard of city schools of the same type, and teach special lessons for the observation of Teachers College classes in method of teaching the special subjects. The character of the work of the training teacher determines almost entirely the success of the Training School in accomplishing its purpose.

A training teacher for history has charge of that work in grades five to eight inclusive. Training teachers for geography, drawing, music, penmanship, and physical education have charge of these subjects in grades one to eight. The teachers in other departments of the Teachers College have in all cases an advisory relation to the Training School and in some cases a

supervisory relation. Senior College students have two quarters of practice teaching in the College High School which is a training school for teaching in high school.

PURPOSE.—The purpose of the Teachers College in maintaining a Training School is twofold. It needs a pedagogical laboratory in which students and members of the faculty may test the methods of instruction and the pedagogical theories taught in the Teachers College. And to develop in the students craftsmanship in teaching they must have opportunity to observe expert work and to develop skill by actual experience in teaching.

The results, however, cannot be secured unless the Training School itself is aiming at the best possible education for the boys and girls who are pupils in the school. If the Training School is not securing for its pupils results up to the standard of good schools of the usual type, it is not best adapted to its purpose as an experiment school, and if it is not at least equal to other elementary schools it is certainly not adapted to secure the best results as a school of observation and practice.

PRACTICE TEACHING.—All students graduating from the Teachers College in the two-year curriculum are required to take throughout their second year a course in practice teaching. The first quarter the student is assigned to teach in the lower four grades or in the upper four grades as he chooses; the second quarter, in the group of grades not chosen for the first quarter; and the third quarter, in the grade, if possible, in which he thinks his future teaching is to be done.

Student teachers are assigned to training teachers by the director and are assigned by the training teacher to particular teaching duties for one fifty-minute period each day. In the beginning of the first quarter the student makes plans for teaching the lessons in his assigned subject after discussing the subject matter and the procedure with the training teacher, but for one or two weeks the teaching is done by the training teacher, the student observing. Gradually the teaching is turned over to the student, the training teacher observing and discussing the lessons and lesson plans before and after the student teaches the lesson. Each training teacher holds one general meeting each week with her group of students, besides special conferences with individuals. She also does as much of the teaching as seems necessary to keep the class up to standard and to furnish the student opportunity to observe expert teaching.

Students taking a four-year curriculum take one quarter of practice teaching in the Elementary Training School in their third year. Two quarters of teaching, one in the major subject and one in the major or minor subject, are required of them in

the senior year and are taken in the Teachers College High School.

For special regulations as to admission to practice teaching see III under "Scholarship."

OBSERVATION AND PARTICIPATION.—In the first year students in the two-year curriculum are required to take work in observation in the Training School. The work is designed to prepare them to meet the problems of teaching which they must meet in their course in practice teaching, to enable them to see the application of their course in psychology, and to assist them in selecting the group of grades in which they wish to teach. Opportunity is given to observe both the room management and the teaching of the training teacher. Some opportunity is offered to assist in the management and in the planning of lessons.

THE HIGH SCHOOL.—The Teachers College High School is recognized by the State Department of Education and is accredited by the University of Illinois and by the North Central Association of Colleges and Secondary Schools. Those who have completed the eighth grade may enter the ninth grade which is the first year of a four-year high school. Full credit is allowed to students entering from other accredited high schools. Sixteen units are required for graduation. Graduates of The Teachers College High School are admitted to the freshman class of the College. A special bulletin will be sent on request.

DESCRIPTION OF COURSES

ART AND DESIGN

24. ELEMENTARY DRAWING. Lettering, perspective, composition and poster work, study and practice of color.

Eight hours a week. Four quarter hours. Every quarter.

25. ELEMENTARY WATER COLOR. Painting in water color from still life.

Eight hours a week. Four quarter hours. Spring quarter.

26. APPLIED ART. Crafts; weaving, gesso, enamel, and leather work.

Eight hours a week. Four quarter hours. Fall quarter.

27. HISTORY OF ORNAMENT AND OF ARCHITECTURE.

Four hours a week. Four quarter hours. Winter quarter, odd years.

28. HISTORY OF PAINTING. A study of the history of the different periods, the great artists and sculptors, and their work.

Four hours a week. Four quarter hours. Winter quarter, even years.

29. ADVANCED PERSPECTIVE.

Eight hours a week. Four quarter hours. Spring quarter.

30. REPRESENTATION. Section I for Art students. The study of the essentials of perspective and their application to still life groups in charcoal, crayon, water color, and ink.

PERSPECTIVE. Section II for Home Economics students. The study of the essentials of perspective and their application to simple objects. The Roman alphabet and the principles of color.

Eight hours a week. Four quarter hours. Fall quarter.

31. POSTER WORK. Section I for Art students. The study of lettering for commercial and educational uses and for application to book making, bulletins, and posters. The principles of design and color. "Art in Every Day Life" by Goldstein is the text used.

DESIGN I. Section II for Home Economics students. The study of the principles of design and their application to Home Economics. The same text is used as for Section I.

Eight hours a week. Four quarter hours. Winter quarter.

32. DESIGN I. Section I for Art students. Decorative applications of the principles of design.

DESIGN II. Section II for Home Economics students. The application of the principles of design and color to various materials.

Eight hours a week. Four quarter hours. Spring quarter.

33. DESIGN II. Plants, animals, and birds in decoration and the application of these forms to the making of patterns. Color theory, leather tooling, wood block printing, and batik work.

Eight hours a week. Four quarter hours. Fall quarter.

34. JEWELRY. Design as applied to metal work and to jewelry.

Eight hours a week. Four quarter hours. Spring quarter.

35. POTTERY. The application of the principles of design to pottery.

Eight hours a week. Four quarter hours. Winter quarter.

36. INDUSTRIAL ARTS FOR THE LOWER GRADES. See Industrial Arts 24.

Required in the freshman year of the art curriculum. Eight hours a week. Four quarter hours. Fall and spring quarters.

37. INDUSTRIAL ARTS FOR THE UPPER GRADES. See Industrial Arts 25.

Required in the freshman year of the art curriculum. Eight hours a week. Four quarter hours. Fall and summer quarters.

40. THE TEACHING OF ART. A course in method in art with special reference to art in high school.

Required in the senior year of those whose major subject is art. Four hours a week. Four quarter hours. Fall quarter.

41. PRACTICE TEACHING IN ART.

Required in the senior year. Five hours a week. Four quarter hours. Winter quarter.

42. PRACTICE TEACHING IN ART, continued.

Required in the senior year. Five hours a week. Four quarter hours. Spring quarter.

43. STILL LIFE I. Studies in charcoal, water color, and oil.

Eight hours a week. Four quarter hours. Fall quarter, even years.

44. INTERIOR DECORATION. A thorough and practical course in the fundamentals of interior decoration. Emphasis is placed on good color harmony, and the application of the principles of design. The course includes the study of periods and styles of furniture and of materials used in interiors.

Eight hours a week. Four quarter hours. Winter quarter, even years.

45. DESIGN III. The application of the principles of design and color to house plans, wall elevations, and rooms in perspective.

Eight hours a week. Four quarter hours. Spring quarter, even years.

46, 47. LIFE SKETCH. Drawing from a model. Study of general anatomical facts.

FALL QUARTER, 1934-35

	8:00	8:55	9:50	10:45		1:00	1:55	2:50	3:45	<p>1. The Schedule of Classes for the week runs from 9:50 on Monday morning to 2:45 on Friday afternoon. No class being put in the first two periods of Monday morning, the second two periods of Tuesday morning, the first two periods of Thursday afternoon, and the second two periods of Friday afternoon.</p> <p>2. Assembly at 9:50 on Tuesdays and 1:55 on Thursdays.</p> <p>3. The winter and spring quarter schedules follow that of the fall quarter as here given. Schedules are printed each quarter for the following quarter.</p> <p>4. The programme of studies for the two-year diploma curriculum is given by years, quarters, and sections under Description of Curricula.</p>

Eight hours each a week. Eight quarter hours. Fall and winter quarters, odd years.

48. ILLUSTRATION. Study of applied composition in connection with work from life.

Eight hours a week. Four quarter hours. Spring quarter, odd years.

49. COMMERCIAL DESIGN. Decorative composition and lettering. Application to high-school annual and to other school publications.

Eight hours a week. Four quarter hours. Fall quarter.

50. STILL LIFE II. More advanced work in still life, using oil paints and water colors.

Eight hours a week. Four quarter hours. Winter quarter.

51. ART APPRECIATION. The history of ornament, architecture, sculpture, and painting.

Elective (except in the art curriculum) for juniors and seniors; a recommended elective for juniors in the English curriculum. Four hours a week with preparation. Four quarter hours. Spring quarter.

EDUCATION AND TEACHING

I. EDUCATION

College

Note: Beginning with the fall quarter, 1933-34, a change was made in the education requirements in four-year curricula. The junior year remains unchanged, 1934-35, and the senior year, 1934-36, with the exception of the requirement of Education 44 in all curricula and the regulations as to practice teaching. See III under "Scholarship."

20, 21, 22. INTRODUCTION TO EDUCATIONAL PSYCHOLOGY, EDUCATIONAL PSYCHOLOGY, PSYCHOLOGY OF ELEMENTARY EDUCATION.

Required in the freshman year of the two-year curriculum. Four hours a week. Four quarter hours for each course. Education 20, fall quarter; Education 21, winter quarter; Education 22, spring quarter.

23, 24, 25. PRINCIPLES OF ELEMENTARY EDUCATION, MANAGEMENT OF THE ELEMENTARY SCHOOL, PRIMARY EDUCATION.

Required in the sophomore year of the two-year curriculum, but students who prefer upper grade work do not take Education 25. Four hours a week. Four quarter hours for each course. Education 23 and 24, every quarter; Education 25, spring quarter.

30, 31, 32. INTRODUCTION TO EDUCATIONAL PSYCHOLOGY, EDUCATIONAL PSYCHOLOGY, PSYCHOLOGY OF SECONDARY EDUCATION.

Required in the sophomore year in four-year curricula, beginning 1934-35. Not open to students who have had Education 20, 21, 22. Four hours a week. Four quarter hours. Education 30, fall quarter; Education 31, winter quarter; Education 32, spring quarter.

43, 44, 45. PRINCIPLES OF SECONDARY EDUCATION, EDUCATIONAL MEASUREMENTS, MANAGEMENT OF THE SECONDARY SCHOOL.

Required in four-year curricula in the junior or senior years of all who have not had Education 23 and 24, the former requirement. Four hours a week. Four quarter hours for each course. No credit for Education 43 or 45 if the student has had Education 23 or 24. Education 43, fall and winter quarters; Education 44, every quarter; Education 45, every quarter.

47. SOCIAL PSYCHOLOGY.

Elective, junior or senior year. Four hours a week. Four quarter hours. Spring quarter.

48. SCHOOL ADMINISTRATION.

Elective, junior or senior year. Four hours a week. Four quarter hours. Summer quarter.

II. TEACHING

A detailed description of the courses in practice teaching and of the course in observation may be found under the head, Training School.

For restrictions on admission to practice teaching course, see III under "Scholarship."

20, 21, 22. PRACTICE TEACHING IN THE GRADES.

Required in the second year of the two-year curriculum for preparation of teachers for the grades. Five hours a week. Four quarter hours for each course. Every quarter.

30. FIRST QUARTER OF PRACTICE TEACHING FOR STUDENTS IN FOUR-YEAR CURRICULA. It includes Teaching 30 (Art), Teaching 30 (English), Teaching 30 (Latin), Teaching 30 (Geography), Teaching 30 (History), Teaching 30 (Industrial Arts), Teaching 30 (Mathematics), Teaching 30 (Music), Teaching 30 (Botany), Teaching 30 (Zoölogy), Teaching 30 (Physics), Teaching 30 (Chemistry).

The word in parenthesis indicates the student's major subject and is needed to show so far as possible the subject which he should be assigned to teach.

Students in four-year curricula are not registered for Teaching 20 which is the first course for students in the two-year curriculum.

For restrictions on admission to any course in practice teaching see III, under "Scholarship."

Prerequisite: Junior classification except as specified in III, under "Scholarship." Five hours a week. Four quarter hours. Fall quarter, junior year, unless the student is admitted in the sophomore year under the regulations given in III, under "Scholarship."

41, 42. PRACTICE TEACHING IN THE MAJOR OR MINOR SUBJECT.

Two quarters of practice teaching are required in the Senior College. At least one of these quarters must be in the major subject. These courses are listed under the same numbers (41, 42) in the description of courses in each department.

Required in the Senior College. Five hours a week. Four quarter hours. Winter and spring quarters.

41G to 48G. PRACTICE TEACHING AND SUPERVISION IN ELEMENTARY GRADES.

Required in the Senior College in the curriculum for preparation of elementary grade teachers. Five hours a week. Four quarter hours for each course. Fall, winter, and spring quarters.

ENGLISH

20, 21. COMPOSITION. A course in the fundamentals of good speaking and writing. Creditable work in English 20, 21 is a prerequisite to teaching in the Training School. Credit for English 20, 21 may be earned in one, two, or more quarters according to individual progress. Students who complete English 21 when registered for English 20 may substitute another English credit for English 20, being counted excused from English 20.

Required in the freshman year in all curricula. Four hours a week. Four quarter hours for each course. Every quarter.

21J. JOURNALISM I. The course covers the fundamentals of news-writing and reporting. It is designed to train students to act as advisers for high-school student publications. Part of the class work appears regularly in *The Teachers College News*.

Prerequisite: English 20. Accepted for English 21. Four hours a week. Four quarter hours. Winter quarter.

22. LITERATURE IN THE GRADES. Emphasizes chiefly wide acquaintance with the great bodies of world literature—myth, legend, etc.—and with the best poetry suitable for children.

Required in the first year of the two-year curriculum unless English 24 or 27 is taken. Four hours a week. Four quarter hours. Spring and summer quarters.

24. TEACHING OF ENGLISH. The teaching of composition in the grades is covered as fully as time permits, including discussion of materials, purposes, standards, theme-topics, correcting of compositions, literature in the grades, and methods of teaching. This course is especially recommended to students interested in intermediate, upper grade, or junior high school work.

Prerequisite: English 20 and 21. Required in the first year of the two-year curriculum (unless English 22 or 27 is taken) and required instead of English 25 of students in the four-year English curriculum. Four hours a week. Four quarter hours. Spring and summer quarters.

24. READING. Designed both to improve the oral and silent reading of the pupils and to give them definite standards by which they may intelligently judge the reading of others. Some attention is given to methods of teaching reading in the grades.

Required in the two-year curriculum. Four hours a week with preparation. Four quarter hours. Every quarter.

25. INTRODUCTION TO LITERATURE. Designed to give the student an acquaintance with the most common types of English literature, including narrative and lyric poetry, biography and letters, the short story, and the essay.

Prerequisite: English 20 and 21. Required in four-year curricula, except the English curriculum. Four hours a week. Four quarter hours, Spring quarter.

26. GRAMMAR. A course for those preparing to teach in the upper grades or in junior high school.

Required in the upper grade sections, sophomore year of the two-year curriculum. Four hours a week. Four quarter hours. Every quarter.

30, 31. NINETEENTH CENTURY PROSE FICTION. The primary aim is to arouse the student's interest in the best fiction, and the secondary, to furnish him with standards of judgment.

Prerequisite: English 30 to English 31. Four hours a week. Eight quarter hours. English 30, fall quarter; English 31, winter quarter. Summer quarter.

34. AMERICAN LITERATURE. A survey of American literature from the beginning to the present.

Four hours a week. Four quarter hours. Spring and summer quarters.

35. GREEK DRAMA. Origins and development of classical drama; Aeschylus, Sophocles, Euripides.

Prerequisite: English 30, 31, 34. Four hours a week. Four quarter hours. Fall and summer quarters.

36. SHAKESPEARE AND THE ELIZABETHAN DRAMA. A study of Shakespeare's most important plays, and of their place in the development of English drama. Some attention is given to the chief dramatists contemporary with Shakespeare.

Four hours a week. Four quarter hours. Winter and summer quarters.

37. MODERN DRAMA. The purpose of this course is to familiarize the student with what is best in modern drama.

Four hours a week. Four quarter hours. Spring and summer quarters.

38. JOURNALISM. See 44J, 44J2.

39. DRAMATICS. A study of the presentation of plays, including the reading of contemporary dramas, the production of at least one play, and the dramatization of an episode or a short story. Some instruction in the coaching of plays is given. Accepted for English 37.

Four hours a week. Four quarter hours. Summer quarter.

40. THE TEACHING OF ENGLISH IN THE HIGH SCHOOL.

Important topics connected with English in the high school are covered as fully as time permits.

Required in the senior year of those whose major subject is English. Four hours a week. Four quarter hours. Fall quarter.

41, 42. PRACTICE TEACHING IN ENGLISH IN THE HIGH SCHOOL.

Five hours a week. Four quarter hours for each course. Winter and spring quarters.

43. CONTEMPORARY LITERATURE. Extensive reading in current literature introduces the student to the best that is being written today, and provides him with some standards of judgment with the hope of stimulating his enthusiasm for good books.

Required or elective in the junior year in all curricula. Four hours a week. Four quarter hours. Fall and summer quarters.

44. ADVANCED RHETORIC. Chiefly written composition, applying the principles of organization and effective expression to somewhat more extended material than do English 20 and 21. The course is intended to give both an introduction to the methods of research and opportunity for original work.

Prerequisite: Junior College required English. Required or elective in the junior year in all curricula. Four hours a week. Four quarter hours. Winter and summer quarters.

44J. JOURNALISM II. This course is designed to train students in the effective expression of problems of student life.

Opportunity is afforded for original work. The present-day newspaper and its relation to contemporary life are discussed.

Prerequisite: English 21J or the equivalent. Four hours a week. Four quarter hours. Every quarter.

45. ORAL ENGLISH. Through prepared talks and discussions this course gives training in the effective expression of genuine ideas and opinions. Sincerity, adequate development of thought, the proper use of facts and evidence, and also the principles and practice of good delivery are stressed.

Prerequisite: Junior College required English. Required or alternative with English 44 in the junior year in all curricula. Four hours a week. Four quarter hours. Spring and summer quarters.

46, 47, 48. MODERN ENGLISH POETRY. Appreciation of the art of poetry, and a study of some of the chief English poets, as they illustrate this art. Beowulf to Chaucer; Milton to Burns; Nineteenth Century Poetry.

Required in the English curriculum; elective in others. Four hours a week. Four quarter hours for each course. English 46, fall quarter; English 47, winter quarter; English 48, spring quarter. Summer quarter.

49. THE ESSAY. This course traces the development of the essay in English, with special attention to style.

Required in the senior year of the English curriculum and elective for juniors and seniors in any curriculum. Four hours a week. Four quarter hours. Fall quarter.

50, 51. HISTORY OF THE ENGLISH LANGUAGE AND LITERATURE. The development of the English language from Anglo-Saxon to the language of today traced concurrently with the history of English literature.

Required in the senior year of the English curriculum. Not open as elective in other curricula except by special permission of the head of the English department. Four hours a week. Eight quarter hours for the two courses. Winter and spring quarters.

FOREIGN LANGUAGE

FRENCH

30, 31, 32. FIRST YEAR FRENCH. A careful study of the principles of grammar. Special attention is paid to pronunciation and drill in rhythm and intonation. Study of phonetics as an aid to pronunciation. Reading of simple French texts.

Elective. Four hours a week. Twelve quarter hours, no credit toward graduation for less than a year's work. French 30,

fall quarter; French 31, winter quarter; French 32, spring quarter.

33, 34, 35. **ADVANCED FRENCH.** Rapid review of grammatical forms and idioms. Reading of moderately difficult texts. Moliere: Reading and discussion of several of his comedies; written reports on his life, works, and influence on French literature. All recitations are, as far as possible, conducted in French.

Prerequisite: Two years of high-school French or one year of college French. Elective. Four hours a week. Twelve quarter hours. French 33, fall quarter; French 34, winter quarter; French 35, spring quarter.

43, 44, 45. **ADVANCED FRENCH.** Dramas of Marivaux and Hugo. Modern poetry. Reading of moderately difficult texts. Frequent reports on suggested topics. Oral themes. Conversation.

Prerequisite: Two years of college French. Elective. Four hours a week. Twelve quarter hours. French 43, fall quarter; French 44, winter quarter; French 45, spring quarter.

GERMAN

30, 31, 32. **FIRST YEAR GERMAN.**

Elective. Four hours a week. Twelve quarter hours, no credit toward graduation for less than a year's work. German 30, fall quarter; German 31, winter quarter; German 32, spring quarter.

33, 34, 35. **SECOND YEAR GERMAN.** Review of grammar. Reading of German short story classics. Shorter German poetry and folk-songs.

Prerequisite: German 30, 31, 32, or the equivalent. Elective. Four hours a week. Twelve quarter hours. German 33, fall quarter; German 34, winter quarter; German 35, spring quarter.

43, 44, 45. **THIRD YEAR GERMAN.** Longer and more advanced German stories and plays by standard authors. German 45 stresses prose composition.

Prerequisite: German 30, 31, 32, or the equivalent. Elective. Four hours a week. Twelve quarter hours. Omitted 1934-1935.

LATIN

30. **LIVY, SELECTIONS FROM BOOKS, I, XXI, AND XXII.**

Prerequisite: Four years of high-school Latin. Four hours a week. Four quarter hours. Fall quarter, odd years.

31. **CICERO, DE AMICITIA, DE SENECTUTE, AND DE OFFICIIS.**

Prerequisite: Latin 30. Four hours a week. Four quarter hours. Winter quarter, odd years.

32. HORACE, ODES AND EPODES.

Prerequisite: Latin 31. Four hours a week. Four quarter hours. Spring quarter, odd years.

33. VIRGIL, AENEID, BOOKS VII-XII.

Prerequisite: Four years of high-school Latin. Four hours a week. Four quarter hours. Fall quarter, even years.

34. HORACE, SATIRES AND EPISTLES.

Prerequisite: Latin 33. Four hours a week. Four quarter hours. Winter quarter, even years.

35. PLAUTUS, MENAECHMI, MOSTELLARIA, AND CAPTIVI.

Prerequisite: Latin 34. Four hours a week. Four quarter hours. Spring quarter, even years.

GEOGRAPHY

Note: For elementary grade or department teachers, Geography 20, 21, 30, 40, 31, 44 (or 46) are recommended.

Those preparing to teach geography in high school should take Geography 20, 21, 30, 31, 33, 36, and 40.

20. PRINCIPLES OF GEOGRAPHY. A survey of the basic relationships between the natural environment and man's activities. This course is organized as a service course for those who are preparing for grade teaching and as a foundation for those who have selected geography as a major or minor subject.

Required in the Junior College of those in the two-year curriculum for preparation of teachers for the grades. Elective for others. Four hours a week. Four quarter hours. Every quarter.

21. CLIMATOLOGY. A treatment of climates and their causes. As a basis, a study is made of the form and motions of the earth as underlying influences upon the elements of weather and climate.

Required in the Junior College of those in the two-year curriculum for preparation of teachers for the grades. Elective for others. Four hours a week. Four quarter hours. Every quarter.

Note: Studies of the continents lead to an understanding of the industrial and commercial development and possibilities of geographic regions.

30. GEOGRAPHY OF NORTH AMERICA.

Prerequisite: Geography 20 and 21. Elective. Four hours a week. Four quarter hours. Spring and summer quarters.

31. GEOGRAPHY OF SOUTH AMERICA.

Prerequisite: Geography 20 and 21. Elective. Four hours a week. Four quarter hours. Winter and summer quarters.

32. GEOGRAPHY OF EUROPE.

Prerequisite: Geography 20 and 21. Elective. Four hours a week. Four quarter hours. Fall and summer quarters.

33 (43). PHYSIOGRAPHY. A study of the processes which change the surface of the earth. The course includes quite extensive work in interpreting the earth's surface through the use of topographic maps. This course should be elected by those who may teach physiography or general science in high school.

Four hours a week. Four quarter hours. Fall quarter.

36. ELEMENTS OF GEOLOGY. The course presents the history of the development of the earth and life to the present form, emphasizing the explanation of the distribution and accessibility of the mineral resources of the earth. It is offered as a cultural subject and as a foundation for advanced study and reading in the fields of geography, botany, and zoölogy.

Four hours a week. Four quarter hours. Spring and summer quarters.

40. THE TEACHING OF GEOGRAPHY. A study of the principles involved in the selection, organization and presentation of geographic material for elementary and secondary schools according to the individual needs of the class.

Required in the senior year of those whose major subject is geography. Four hours a week. Four quarter hours. Fall quarter.

41, 42. PRACTICE TEACHING IN GEOGRAPHY.

Required in the senior year of those whose major subject is geography. Five hours a week. Eight quarter hours. Winter and spring quarters.

44. TRADE AND TRANSPORTATION. A survey of the major trade regions of the world and the transportation facilities which have contributed to their development.

Prerequisite: Geography 20, 21. Four hours a week. Four quarter hours. Spring quarter, odd years.

45. GEOGRAPHY OF ASIA.

Prerequisite: Geography 30, 31, 32. Four hours a week. Four quarter hours. Winter quarter.

46. URBAN GEOGRAPHY. A detailed study of the location, growth, decline, and characteristics of cities as influenced by the natural environment.

Prerequisite: Geography 20, 21. Four hours a week. Four quarter hours. Spring quarter, even years.

HISTORY, GOVERNMENT, ECONOMICS, SOCIOLOGY

HISTORY

The history requirement in the Junior College may be fulfilled by selecting any two consecutive quarters of American history or ancient history.

33. AMERICAN POLITICAL AND INSTITUTIONAL HISTORY TO 1825.
Four hours a week. Four quarter hours. Fall quarter.

34. THE POLITICAL AND INSTITUTIONAL HISTORY OF THE UNITED STATES, 1825-1876.

Four hours a week. Four quarter hours. Winter quarter.

35. THE POLITICAL AND INSTITUTIONAL HISTORY OF THE UNITED STATES, 1876 TO THE PRESENT.

Four hours a week. Four quarter hours. Spring quarter.

37. ANCIENT HISTORY TO ABOUT 500 B. C.

Four hours a week. Four quarter hours. Fall quarter.

38. HISTORY OF GREEK CIVILIZATION.

Four hours a week. Four quarter hours. Winter quarter.

39. POLITICAL AND INSTITUTIONAL HISTORY OF ROME.

Four hours a week. Four quarter hours. Spring quarter.

40. THE TEACHING OF HISTORY.

Required in the senior year of those whose major subject is history. Four hours a week. Four quarter hours. Fall quarter.

41, 42. PRACTICE TEACHING IN HISTORY.

Required in the senior year of those whose major subject is history. Five hours a week. Eight quarter hours. Winter and spring quarters.

43, 44, 45. ENGLISH HISTORY. A fundamental course in the political and social institutions of England.

Four hours a week. Twelve quarter hours. Fall, winter, and spring quarters, even years.

46. THE HISTORY OF WESTERN EUROPE FROM THE CLOSE OF THE FOURTH CENTURY TO 1500.

Four hours a week. Four quarter hours. Fall quarter, odd years.

47. THE HISTORY OF EUROPE, 1500-1815.

Four hours a week. Four quarter hours. Winter quarter, odd years.

48. THE HISTORY OF EUROPE, 1815 TO THE PRESENT.

Four hours a week. Four quarter hours. Spring quarter, odd years.

GOVERNMENT

43. STATE AND LOCAL GOVERNMENT.

Four hours a week. Four quarter hours. Fall and summer quarters.

44. THE NATIONAL GOVERNMENT.

Four hours a week. Four quarter hours. Winter and summer quarters.

45. MODERN GOVERNMENTS OF EUROPE AND AMERICA.

Prerequisite: Courses 44. Four hours a week. Four quarter hours. Spring and summer quarters.

ECONOMICS

20. THE ECONOMIC HISTORY OF THE UNITED STATES.

The natural resources, their extent, geographical distribution, and relation to industrial life; the development of agriculture, industry, commerce, and transportation; the changes in methods of production and distribution and their relation to present economic problems.

Required in the curriculum in Industrial Arts. Four hours a week. Four quarter hours. Spring quarter.

44. THE PRINCIPLES OF ECONOMICS.

Elective. Four hours a week. Four quarter hours. Fall quarter.

45. THE PRINCIPLES OF ECONOMICS AND THEIR APPLICATION TO PRESENT-DAY ECONOMIC PROBLEMS.

Prerequisite: Course 44. Elective. Four hours a week. Four quarter hours. Winter quarter.

46. MONEY AND BANKING.

Prerequisite: Courses 44 and 45. Elective. Four hours a week. Four quarter hours. Spring quarter.

SOCIOLOGY

43. INTRODUCTION TO SOCIOLOGY. The contemporary community; the bases of community life; the family and the modern home; making a living; acquiring an education; moral and religious life; government and community planning; poverty, crime, and delinquency; the community and society.

Elective. Senior College. Four hours a week. Four quarter hours. Fall quarter.

44. PRINCIPLES OF SOCIOLOGY. Social institutions and social processes; conditioning factors of social change (biological, environmental, and psycho-social); social interaction, association, accommodation, and assimilation; coöperation and the organic

nature of society; invention and social change; social sanctions and social control.

Prerequisite: Sociology 43. Four hours a week. Four quarter hours. Winter quarter.

45. CURRENT SOCIAL PROBLEMS AND TENDENCIES. Population trends; changes in rural and urban life; institutional changes—the family, the school, the church, the government.

Prerequisite: Sociology 44. Four hours a week. Four quarter hours. Spring quarter.

HOME ECONOMICS

Note: The four-year curriculum in home economics (See Curriculum II, 2F) is designed to cover the needs of teachers who wish to teach home economics in high schools which receive Federal Aid under the Smith-Hughes Law. It has been approved by the State Supervisor of Home Economics.

I. CLOTHING

30. ELEMENTARY CLOTHING. Textile study. Problem: Undergarments. The developing of illustrative material for teaching.

Elective. Eight hours a week. Four quarter hours. Fall and summer quarters.

31. CLOTHING. Problem: A smock. Decorative stitches, clothing economics, study of clothing budgets.

Prerequisite: Clothing 30. Elective. Eight hours a week. Four quarter hours. Winter and summer quarters.

32. CLOTHING. Problem: Simple afternoon dress. Elementary clothing selection.

Prerequisite: Clothing 31. Elective. Eight hours a week. Four quarter hours. Spring and summer quarters.

43. CLOTHING. Problem: Wool dress or its equivalent. Advanced clothing selection.

Prerequisite: Clothing 32. Elective. Eight hours a week. Four quarter hours. Fall quarter, even years.

44. CHILDREN'S CLOTHING. Emphasis on selection, make-over, and construction.

Prerequisite: Clothing 43. Elective. Eight hours a week. Four quarter hours. Winter quarter, even years.

45. CLOTHING. Problem: A silk dress or the equivalent. Renovation, care, and repair of clothing.

Prerequisite: Clothing 44. Elective. Eight hours a week. Four quarter hours. Spring quarter, even years.

II. FOODS AND NUTRITION

30. FOODS AND NUTRITION. Study and preparation of foods on meal basis plan. Relation of health to food study. Breakfast.

Prerequisite: Chemistry 30, 31, 32, unless the student is registered for Chemistry 30. Eight hours a week. Four quarter hours. Fall quarter.

31. FOODS AND NUTRITION. Study and preparation of foods on meal basis plan. Luncheons. Christmas candies.

Prerequisite: Foods 30. Eight hours a week. Four quarter hours. Winter quarter.

32. FOODS AND NUTRITION. Study and preparation of foods on meal basis plan. Teas. Dinners.

Prerequisite: Foods 31. Eight hours a week. Four quarter hours. Spring quarter.

43. FOODS AND NUTRITION. Experimental Cookery. Conventional methods in cookery studied experimentally. Recipes analyzed and effects of various proportions studied.

Prerequisite: Foods 32 and Chemistry 43, 44, 45, unless the student is registered for Chemistry 43. Eight hours a week. Four quarter hours. Fall quarter, odd years (1934-35 and alternate years for home economics students).

44. FOODS AND NUTRITION. Dietetics. Principles of normal human nutrition. Application of practical feeding problems to the individual. Calculation and preparation of dietaries.

Prerequisite: Foods 43. Eight hours a week. Four quarter hours. Winter quarter, odd years (1934-35 and alternate years).

45. FOODS AND NUTRITION. Meal planning and serving. Individual planning and preparation of meals for family groups including adaptation to needs of child. Aesthetic phase and social opportunities in meals emphasized.

Prerequisite: Foods 44. Eight hours a week. Four quarter hours. Spring quarter, odd years (1934-35, and alternate years).

III. HOME ECONOMICS

40. ADMINISTRATION AND METHODS IN HOME ECONOMICS.

Prerequisite: Junior standing in the home economics curriculum. Four hours a week. Fall quarter.

41C, 42C. PRACTICE TEACHING IN CLOTHING AND RELATED SUBJECTS.

Prerequisite: Home Economics 40. Five hours a week. Eight quarter hours. Winter and spring quarter, odd years (1934-35 and alternate years).

41F, 42F. PRACTICE TEACHING IN FOODS AND NUTRITION.

Prerequisite: Home Economics 40. Five hours a week. Eight quarter hours. Winter and spring quarter, even years (1935-36 and alternate years).

Note: Three of these four courses in practice teaching (Clothing 41, 42 and Foods 41, 42) are required. There is no credit toward graduation for more than three.

43. HOUSEHOLD PHYSICS. A study of labor saving devices and other equipment in the home with relation to its purchase, care, and use.

Four hours a week. Four quarter hours. Fall quarter, odd years (1934-35 and alternate years).

44. HOUSE PLANNING AND FURNISHING. See Art 44.

Prerequisite: Junior standing in the home economics or art curriculum. Four hours a week. Four quarter hours. Winter quarter, even years (1935-36 and alternate years).

45. HOME MANAGEMENT. The business problems of the home are studied; budget making and ways of meeting problems of the home.

Four hours a week. Four quarter hours. Winter quarter, odd years (1934-35 and alternate years).

46. HOME NURSING. 1. Physical care and training of the infant and pre-school age child. 2. A study of the factors to be used in the training and development of children in the home.

Four hours a week. Four quarter hours. Spring quarter, odd years (1934-35 and alternate years).

47. INDUSTRIAL HISTORY. See Industrial Arts 58.

Prerequisite: Junior standing in the home economics or industrial arts curriculum. Four hours a week. Four quarter hours. Spring quarter.

INDUSTRIAL ARTS**20. PRACTICE TEACHING IN INDUSTRIAL ARTS.**

Required in the junior year in the industrial arts curriculum. Five hours a week. Four quarter hours. Fall, winter, or spring quarters.

24. PRIMARY AND INTERMEDIATE GRADE HANDWORK. A course for teachers of intermediate and lower grades. Paper folding, paper weaving, cardboard construction, book binding, woodwork, basketry (reed and raffia), clay work. Educational values are studied.

Required in the two-year curriculum unless Course 25 is taken. Four hours a week with outside work. Four quarter hours. Fall and spring quarters.

25. INTERMEDIATE GRADE HANDWORK. The making of wooden toys. Related information. Educational values.

Required in the two-year curriculum unless Course 24 is taken. Four hours a week with outside work. Four quarter hours. Fall and summer quarters.

26. SHEET METAL. Lectures, demonstrations, and application to sheet metal problems, supplemented by textbook work.

Eight hours a week. Four quarter hours. Winter quarter.

31. ELEMENTARY MECHANICAL DRAWING. A thorough and practical course in the fundamentals of mechanical drawing. Emphasis is placed on good technique, accuracy, and speed. Lettering, orthographic projection, geometrical construction, introduction to perspective. The common conventions of commercial practice in problems in isometric, oblique, sheetmetal, machine design, and cabinet drawing. Lectures, demonstrations, and applications, supplemented by textbook work.

Eight hours a week. Four quarter hours. Fall quarter.

34. BENCH WOODWORK. Instruction in the use and care of woodworking tools. Construction of tools. Application to type problems. Study of varieties of wood. Lectures, demonstrations, and applications, supplemented by text assignments.

Eight hours a week. Four quarter hours. Winter quarter.

35. BENCH METAL WORK. Work in wrought iron, mild steel, and sheet metal.

Prerequisite: Course 31. Eight hours a week. Four quarter hours. Spring quarter.

36, 37. FURNITURE AND CABINET CONSTRUCTION. Use of power machinery. Study of periods and styles of furniture. Applied design. Pieces of furniture designed in Course 31 are made in the shop. Outside reading and reports in class, covering the development and distinguishing characteristics of period furniture. Students pay for material used and are allowed to take the furniture home at the end of the college year.

Prerequisite: Course 34. Eight hours a week. Eight quarter hours for the two courses. Winter and spring quarters.

39. HOUSEHOLD MECHANICS. The first half of the course consists of refinishing and repair of furniture, simple carpentry work, and masonry repair. The remainder of the course consists of the study, installation, and repair of household equipment.

Required of those whose major subject is industrial arts. Accepted for Home Economics 43 in the Smith-Hughes home economics curriculum.

Eight hours a week. Four quarter hours. Fall quarter.

40. THE TEACHING OF INDUSTRIAL ARTS. This is a course in special methods.

Required in the industrial arts curriculum. Four hours a week. Four quarter hours. Winter quarter.

41, 42. PRACTICE TEACHING IN INDUSTRIAL ARTS.

Required in the senior year of the industrial arts curriculum. Five hours a week. Four quarter hours for each course. Every quarter.

44. ELECTRICAL CONSTRUCTION. The course consists of the building of electrical apparatus useful to high-school students. Wiring of bell circuits, shop installations, radio, automobiles, and houses. Discussions and demonstrations, supplemented by textbook work.

Prerequisite: Physics 31. Eight hours a week. Four quarter hours. Omitted 1934-35.

46. PATTERN MAKING. Problems in wood representing the most common difficulties of the journeyman in reproducing metal castings.

Eight hours a week. Four quarter hours. Fall quarter.

47. GENERAL METAL WORK. The course includes ten weeks of practice in forging and two weeks in oxyacetylene welding.

Eight hours a week. Four quarter hours. Omitted 1934-35.

48. MACHINE SHOP. Problems on the engine lathe.

Eight hours a week. Four quarter hours. Fall and winter quarters.

50. ARCHITECTURAL DRAWING. A two-story house from original plan by the student. Copy plates of architectural conventions. Original elevations for public buildings.

Eight hours a week. Four quarter hours. Winter quarter.

52. ADVANCED ENGINEERING DRAWING. This course covers problems in intricate machine parts and original machine design.

Eight hours a week. Four quarter hours. Spring quarter.

53. AUTOMOBILE INSTRUCTION. The course consists of a study of the parts of various types of automobiles, based upon a text and supplemented by magazine articles. It is a study course, requiring preparation. There is no laboratory work.

Four hours a week. Four quarter hours. Fall quarter.

54. ADVANCED MACHINE WORK. Practice in the making of a small portable machine involving the use of milling machine, shaper, radial drill, and other machines.

Eight hours a week. Four quarter hours. Fall and winter quarters.

55, 56. CARPENTRY. Elements of building construction, based upon a text and supplemented by lectures and readings. Practice in structural work.

Eight hours a week. Eight quarter hours for the two courses. Omitted 1934-35.

57. AUTOMOBILE REPAIR. Practice in repair jobs.

Prerequisite: Industrial Arts 53. Eight hours a week. Four quarter hours. Omitted 1934-35.

58. HISTORY OF INDUSTRIAL EDUCATION.

Four hours a week. Four quarter hours. Spring quarter.

59, 60, 61. PRINTING I, II, III. Study of fundamental processes and practice in simple hand composition. Course 60 consists of advanced hand composition with press and stone work. Course 61 is a study of the linotype mechanism, operation, maintenance, and care.

Eight hours a week. Four quarter hours for each course. Courses 59 and 60, fall quarter; Courses 60 and 61, winter quarter; Course 61, spring quarter.

MATHEMATICS

20. ARITHMETIC. This course includes notation and numeration, the fundamental operations with integers and with common and decimal fractions, factors and multiples, English and metric measures, involution and evolution, and simple problems in the measurement of surfaces and solids. The course covers the topics taken up in the first six grades as outlined in the Illinois State Course of Study. Special attention is given to the teaching of these topics in the lower grades.

Required in the two-year curriculum and in the four-year curriculum for preparation of teachers of primary and intermediate grades. Four hours a week. Four quarter hours. Every quarter.

21. ARITHMETIC. The primary object of this course is to prepare for the teaching of arithmetic in the seventh and eighth grades. The principal topics discussed are percentage and its application to practical business problems, ratio and proportion, graphs, formulas, intuitive geometry, square root, and the mensuration of surfaces and solids. It is the aim of the classroom instructor to familiarize the students with methods of instruction that can be readily adapted to the seventh and eighth grades.

Required in the two-year curriculum and in the four-year curriculum for preparation of teachers of primary and inter-

mediate grades. Four hours a week. Four quarter hours. Winter, spring, and summer quarters.

28. COLLEGE GEOMETRY. The objects of this course are to improve and extend the student's knowledge of the content and methods of Euclidian geometry and to give an introduction to modern geometry.

Required in the sophomore year of those whose major subject is mathematics. Four hours a week. Four quarter hours. Spring quarter.

29. DESCRIPTIVE GEOMETRY. The course includes the line, point, and plane, and their relation to each other; the intersection of surfaces, penetration and development, and conic sections.

Students may take Industrial Arts 31 for credit in Mathematics 29.

Recommended for those whose major subject is mathematics. Four hours a week for two quarters. Four quarter hours for Mathematics 29a and b. Winter and spring quarters.

30. SOLID GEOMETRY. Chapters XII-XVI. Students who have had solid geometry in high school take Arithmetic 20, Mathematics 29, Trigonometry 33. Those who have not had Geometry 30 take Geometry 30, Arithmetic 20, and Trigonometry 33 in the freshman year.

Prerequisite: Geometry 3. Four hours a week. Four quarter hours. Fall quarter.

31. ALGEBRA. Review of Algebra 1, 2, 3. Graphs; functions; determinants of second and third orders applied to simultaneous linear equations; variation; extension of the number system to include complex numbers; theory of quadratic equations; simultaneous quadratics.

Prerequisite: Geometry 3. Four hours a week. Four quarter hours. Fall quarter.

32. ALGEBRA. Exponents and radicals; logarithms; mathematical induction; binomial theorem; progressions; permutations and combinations, probability.

Prerequisite: Algebra 31 or the equivalent. Four hours a week. Four quarter hours. Winter quarter.

33. PLANE TRIGONOMETRY. Definitions and properties of trigonometric functions, the deduction of important trigonometric formulas, the use of tables of logarithms, the solution of plane triangles, and various practical applications.

Four hours a week. Four quarter hours. Spring quarter.

34. PLANE ANALYTIC GEOMETRY. A beginning course in analytic geometry.

Prerequisite: Trigonometry 33. Four hours a week. Four quarter hours. Fall quarter.

35. PLANE ANALYTIC GEOMETRY. Continuation of the preceding course.

Prerequisite: Analytics 34. Four hours a week. Four quarter hours. Winter quarter.

36. ALGEBRA. Theory of equations including elementary transformation, location of roots, and the solution of the cubic and biquadratic equations; limits, elementary properties of series.

Prerequisite: Algebra 32. Elective. Four hours a week. Four quarter hours. Spring quarter.

40. THE TEACHING OF HIGH SCHOOL MATHEMATICS.

Required in the senior year of those whose major subject is mathematics. Four hours a week. Four quarter hours. Fall quarter.

41, 42. PRACTICE TEACHING IN HIGH SCHOOL MATHEMATICS.

Required of those whose major subject is mathematics. Five hours a week. Eight quarter hours. Winter and spring quarters.

43, 44, 45. DIFFERENTIAL AND INTEGRAL CALCULUS.

Prerequisite: Analytics 35; also Calculus 43 to Calculus 44 and Calculus 44 to Calculus 45. Four hours a week. Twelve quarter hours. Calculus 43, fall quarter; Calculus 44, winter quarter; Calculus 45, spring quarter.

MUSIC

I. Musical Organizations

THE COLLEGE MEN'S GLEE CLUB. During the first weeks of the college year, college men may try for a place in this club. The club meets twice a week and appears in public several times during the year, giving the annual concert in March.

THE COLLEGE WOMEN'S GLEE CLUB. Membership in this club is open to all college women who meet the vocal and reading requirements in the preliminary rehearsals. The club meets for two one-hour rehearsals a week in the evening and makes many local appearances during the year. They present one formal concert in the spring.

BAND. Three bands are organized each year, the high school band, the college band, and the concert band. The concert band membership is made up of the best players from the other two bands. There are from fifty to sixty musicians in each of these bands.

The college band plays for home football and basketball games and in the fall sometimes goes to two out-of-town games with the team. This is the marching band. One or two rehearsals are held weekly.

The concert band gives concerts during the year and plays for special occasions. Both bands are fully uniformed. There are two rehearsals weekly.

ORCHESTRA. There are two orchestras, one for beginners, or young players, and the other for advanced players. Some players practice with both organizations. Each organization rehearses once a week. The advanced orchestra numbers about thirty pieces and gives one or two concerts a year.

II. Music Lessons and Fees

PIANO AND VOICE LESSONS. A fee of \$5.00 a quarter is paid for each. Two lessons are given each week in piano and one in voice.

III. Public School Music

Note: Students who wish to make music a minor subject may take Music 30, 31, 32, 33, 34, 35 (or 20).

20. PRACTICE TEACHING IN MUSIC. This course is devoted to a detailed study of the material and methods of teaching music in the elementary school with practice teaching in two grades.

Prerequisite: Music 24 (or the equivalent) and recommendation of the supervisor of public school music and of the director of the Elementary Training School. Five hours a week. Four quarter hours. Fall, winter, and spring quarters.

O. THEORY AND SIGHT READING. The fundamentals of music, including ear training and sight reading for students in the two-year grade curriculum who have never studied music. Students registering for Music 24 are transferred to Music O, a non-credit course, if they have not the prerequisite for Music 24. Students are permitted to take Music O in addition to regular work without the requirement of B average. It is offered in the fall and winter quarters.

Music 24 may be taken in the winter, spring, or summer quarters after Music O has been completed.

24. PUBLIC SCHOOL MUSIC. Elementary sight singing and lower grade methods. The second half of the quarter is devoted to methods of teaching music in the first six grades with observation in the Training School.

Required in the sophomore year in the two-year curriculum for the preparation of teachers of the grades. Four hours a week. Four quarter hours. Every quarter.

30. ELEMENTARY THEORY. A course designed to give a thorough ground work in the melodic, harmonic, and rhythmic

elements of music. Scales, intervals, chords, and cadences are studied in singing, writing, playing, and dictation.

Required in the freshman year of the music curriculum. Four hours a week. Four quarter hours. Fall quarter.

31. **ELEMENTARY THEORY.** A continuation of the work in the fall quarter, with the inclusion of key relation and modulation. Sight reading of two-part music and more complicated rhythms. Emphasis is placed continually on ear training.

Required in the freshman year of the music curriculum. Prerequisite: Music 30. Four hours a week. Four quarter hours. Winter quarter.

32. **ELEMENTARY THEORY.** Rhythmic, melodic, harmonic dictation with thorough practice in sight reading in two-, three-, and four-part music. Transposition and reading of clefs.

Required in the freshman year of the music curriculum. Prerequisite: Music 31. Four hours a week. Four quarter hours. Spring quarter.

33. **HARMONY.** Music composition in the elementary forms with a complete study of the necessary harmonic equipment which includes primary and secondary triads with inversions.

Required in the sophomore year of the music curriculum. Prerequisite: Music 32. Four hours a week. Four quarter hours. Fall quarter.

34. **HARMONY.** Continued writing and playing from dictation of the chords learned in the fall quarter. Introduction and use of seventh chords. Composition and study of small forms.

Required in the sophomore year of the music curriculum. Prerequisite: Music 33. Four hours a week. Four quarter hours. Winter quarter.

35. **HARMONY.** Composition of a three-part song form with further use of the harmonic materials studied in the fall and winter quarters. Introduction to elementary counterpoint.

Required in the sophomore year of the music curriculum. Prerequisite: Music 34. Four hours a week. Four quarter hours. Spring quarter.

IV. Voice

30A. **CLASS INSTRUCTION.** Fundamental principles of voice building. Correct posture. Proper breathing. Modern English songs.

Elective. Four hours a week. Two quarter hours. Fall quarter.

31A. **CLASS INSTRUCTION.** Voice building. Song literature. Continuation of Voice 30A.

Elective. Prerequisite: Voice 30A. Four hours a week. Two quarter hours. Winter quarter.

32A. CLASS INSTRUCTION. Voice building. Song literature. Study of child voice.

Elective. Prerequisite: Voice 31A. Four hours a week. Two quarter hours. Spring quarter.

V. Instrumental Music

30. INSTRUMENTATION I. Study of instruments as to their range, transposition, use, peculiarities of intonation, uniting and penetrating powers; the adaptation of melodies and four-part music to various instrument combinations.

Organization of orchestras and bands in public schools; the relation of instrument classes to these organizations; the study of graded material for their use.

Elective. Four hours a week. Four quarter hours. Fall quarter.

31. INSTRUMENTATION II. Study of the instruments and choirs of the orchestra; the orchestral score; the arranging for instruments of orchestra and band from the piano score; re-scoring for small orchestras; writing a conductor's score from orchestral parts.

Prerequisite: Instrumentation I. Four hours a week. Four quarter hours. Winter quarter.

32. CONDUCTING. The technique of the baton, practice in conducting, interpretation.

Prerequisite: Instrumentation 30, 31. Elective. Four hours a week. Four quarter hours. Spring quarter.

THE USE OF THE LIBRARY

Certain courses offered in the College require considerable work in the library, including reading, and looking up references, and assigned topics. To do this work with the wisest expenditure of time and effort, students should know how to use the card catalogue, magazine indexes, and some common reference books. Lessons, required of all students, are given in the eleventh year of the high school and freshman year of the college. An effort is made to have these lessons prepare for library work required of students in other courses.

20. THE USE OF THE LIBRARY.

Freshman who have completed Library XI in the high school are excused from all but the last four lessons of Library 20.

They should register for Library 20 (XI), given in the first four weeks of the winter quarter.

Required in the freshman year. One hour a week. One quarter hour. Every quarter.

PENMANSHIP

College

20. This course aims to improve the student's writing and to make him familiar with a system of plain business writing and methods of presenting it to pupils in the grades.

The course includes correct position, muscular movement exercises, business forms of capital letters, small letters, figures, sentences, and page writing. Emphasis is placed upon blackboard writing.

Four hours a week. One quarter hour. Every quarter.

PHYSICAL EDUCATION FOR MEN

Credit earned in the required courses in physical education is in addition to the 96 quarter hours required for a diploma and the 192 quarter hours required for a degree.

Physical education and coaching may be used as a second minor subject, but not as the only minor subject.

No student is permitted to count less than 12 nor more than 24 quarter hours in physical education and coaching for credit toward graduation.

Required Courses

Freshman and Sophomore Years

First Year's Work. REGULAR EXERCISES IN THE GYMNASIUM OR PARTICIPATION IN A SPORT.

Two hours a week. One quarter hour for each quarter's work, but not counted toward graduation total. Every quarter.

Second Year's Work. GYMNASIUM WORK OR PARTICIPATION IN A SPORT.

Two hours a week. One quarter hour for each quarter's work, but not counted toward graduation total. Every quarter.

Elective Physical Education

For Sophomores, Juniors, and Seniors

33. PHYSICAL EDUCATION FOR TEACHERS, I. Advanced work in the gymnasium, playground work and games, athletic management for junior high schools.

Prerequisite: At least sophomore classification. Four hours a week with preparation. Four quarter hours. Fall quarter.

34. **PHYSIOLOGY, HYGIENE, AND ANATOMY.** Physiology and physical education, the care of the body, the study of muscles and bones, the treatment of sprains, bruises and wounds, massaging and bandaging.

Prerequisite: At least sophomore classification. Four hours a week with preparation. Four quarter hours. Winter quarter.

35. **PHYSICAL EDUCATION FOR TEACHERS, II.** The history of physical education; the physical education programme.

Prerequisite: At least sophomore classification. Four hours a week with preparation. Four quarter hours. Spring quarter.

36. **BASKET BALL.** Study of the rules. Practice in passing, dribbling, shooting, pivoting, and teamplay. Discussion of plays and tournaments.

Prerequisite: At least sophomore classification. Four hours a week with preparation. Four quarter hours. Fall quarter.

36C. **PRACTICE COACHING IN BASKETBALL.**

Prerequisite: Physical Education 36 and junior or senior classification. Ten hours a week. Four quarter hours. Winter quarter.

37. **FOOTBALL.** The theory and practice of the game. Fundamentals, rules, systems.

Prerequisite: At least sophomore classification. Four hours a week with preparation. Four quarter hours. Spring quarter.

37C. **PRACTICE COACHING IN FOOTBALL.**

Prerequisite: Physical Education 37 and junior or senior classification. Ten hours a week. Four quarter hours. Fall quarter.

38. **TRACK AND FIELD.** A study of forms in starting, sprinting, hurdling, jumping, discus throwing, javelin, shot putting, pole vaulting. Study of rules, discussion of training and preparation for each event.

Prerequisite: At least sophomore standing. Four hours a week with preparation. Four quarter hours. Spring quarter.

38C. **PRACTICE COACHING IN TRACK AND FIELD.**

Prerequisite: Physical Education 38 and junior or senior classification. Ten hours a week. Four quarter hours. Spring quarter.

39C. **PRACTICE COACHING IN BASEBALL.**

Prerequisite: Junior or senior classification with recommendation of the instructor. Ten hours a week. Four quarter hours. Spring quarter.

PHYSICAL EDUCATION FOR WOMEN

A thorough physical examination is given at the beginning of each year. Physical defects, abnormalities, and weaknesses are noted, and the examining physician prescribes exercise to fit the student's individual needs. A resident health director follows up all cases in need of medical attention.

Physical education, two hours a week for two years, is required in the college. This requirement is in addition to the 96 quarter hours required for a diploma and to the 192 quarter hours required for a degree.

The requirements may be considered under two heads:

- I. Regular physical education for the physically fit.
- II. Special courses.

Archery and deck tennis are offered for those who are fit for very moderate exercise.

Students who wish to improve their posture, or to overcome such detriments to health and efficiency as may be favorably influenced by advice and exercise, e. g.; fallen arches, weak and painful feet, and weak abdominal muscles may make an appointment with a member of the staff for this instruction.

1. Hockey, soccer, tennis, archery, and deck tennis are offered in the fall and spring quarters with lectures on playing and on coaching and refereeing. An interclass tournament is held in the spring quarter.

2. In the winter quarter, students in four-year curricula take clog dancing and Danish gymnastics, while students in the two-year curriculum take up methods, subject matter, and activities suitable to children in the grades.

Some opportunity of supervising playground work may be given in the fall and spring to students in the two-year curriculum who have taken the necessary preparatory work.

BIOLOGICAL SCIENCE

I. HUMAN PHYSIOLOGY

43. **ELEMENTARY PHYSIOLOGY.** The fundamental principles of animal physiology, including the chemical and physical structure of animate matter; the reactions involved in animals, including the human body, in responding to environmental conditions; the formation, structure, and functions of blood and lymph; and the fundamental structure of the nervous system with particular emphasis on reflex actions. A survey of the conditions determining the activities of living forms.

Elective. Six hours a week. Four quarter hours. Summer quarter.

44. ELEMENTARY PHYSIOLOGY. A study of respiration, foods, digestion, metabolism, and excretion.

Prerequisite: Physiology 43. Elective. Six hours a week. Four quarter hours. Summer quarter, even years.

45. ELEMENTARY PHYSIOLOGY. A study of circulation, the organs of internal secretion, the central nervous system, and the special senses.

Prerequisite: Physiology 43. Elective. Six hours a week. Four quarter hours. Summer quarter, odd years.

II. BOTANY

The botany department is well equipped for the training of teachers of botany in high schools, general biology, nature study in the grades, and general science; and those who complete the four-year botany curriculum are equipped to do graduate work in other institutions. The sequence of courses offered by this department has been carefully arranged for the teaching of botany. These courses with the equipment of the laboratory train the student for skillful laboratory teaching and may train him to enter other occupations in the field of science such as technicians in various laboratories.

The campus affords excellent opportunity for the study of trees, shrubs, and herbaceous plants. There are over two hundred different kinds of trees and shrubs on the campus and numerous herbaceous flowering plants as well as many specimens of the other groups of plants.

20. COLLEGE BOTANY. A course designed to give the student a knowledge of the fundamental physiological processes concerned in the growth of plants, and of the external and internal structures which are concerned in these processes in leaves, stems, and roots. It includes also the effects of environment on these processes and structures.

Required in the two-year curriculum, unless Zoölogy 23 (or 20) or Botany 21 or 22 is taken. Elective in other curricula. Six hours a week. Four quarter hours. Every quarter.

21. COLLEGE BOTANY. A study of the reproduction of flowering plants, the development of fruit and seeds from the parts of the flower, the mechanism of heredity, and a brief study of the great groups of plants.

Prerequisite: Botany 20. Elective. Six hours a week. Four quarter hours. Winter and summer quarters.

22. GENERAL LOCAL FLORA. The identification of trees in winter and summer condition, of the common fresh water algae, liverworts, mosses and ferns, and of flowering plants as the season advances; and with a study of structures which is necessary for the recognition of these forms. The course is designed especially for those who expect to teach biological science in secondary schools.

Prerequisite: Botany 20 and 21 or permission of the instructor. Elective. Six hours a week. Four quarter hours. Spring and summer quarters.

30. THE MORPHOLOGY OF GREEN PLANTS. A study of the vegetative and reproductive structures of the green plants and a comparative study of the typical life histories of the great groups. The course consists mostly of laboratory work.

Prerequisite: Botany 20 and 21. Elective. Six hours a week. Four quarter hours. Fall quarter.

31. INTRODUCTION TO FUNGI AND PLANT DISEASES. The structure, life histories, and physiology of the groups of fungi and their relation to decay, fermentation, and the important plant diseases.

Prerequisite: Botany 20 and 21. Elective. Six hours a week. Four quarter hours. Winter quarter.

32. ECONOMIC BOTANY. The relation of vegetation centers to crop centers; the effect of environment factors on the production of carbohydrates, fats, fibers, and other plant products; the value of microorganisms in the important economic practices carried on by their use.

Prerequisite: Botany 20 and 21. Elective. Four hours a week. Four quarter hours. Spring quarter.

40. METHOD IN HIGH SCHOOL BOTANY. The course includes methods of teaching high school botany and also the collection and preparation of material for demonstration and laboratory in high school botany.

Prerequisite: Two years' work in college botany. Required in the senior year in the four-year curriculum in botany. Four hours a week. Four quarter hours. Fall quarter.

41, 42. PRACTICE TEACHING IN HIGH SCHOOL BOTANY.

Prerequisite: Botany 40. Required in the senior year in the four-year curriculum in botany unless Zoölogy 41 is substituted. Five hours a week. Course 41, four quarter hours; Course 42, four quarter hours. Winter and spring quarters.

43. MICROTECHNIC. A course designed for the purpose of giving the student a knowledge of the preparation of botanical material for class use and for the making of microscopic slides.

It is desirable that students in this course shall have had a year of chemistry.

Prerequisite: Botany 20, 21, 22, and 30, or the equivalent. Elective. Six hours a week. Four quarter hours. Fall quarter.

44. EXPERIMENTAL PLANT PHYSIOLOGY. A qualitative and quantitative study of the experiments demonstrating the chemical and physical processes that result in the growth of plants and the application of this knowledge in solving problems in the growth of plants.

Prerequisite: One year of chemistry and Botany 20 and 21. Elective. Six hours a week. Four quarter hours. Winter quarter.

45. ADVANCED BOTANY. This is designed to meet the needs of individual students who wish to do advanced work in some special field of botany. The student may choose the work he wishes to do, but is required to consult the instructor before registering.

Prerequisite: Botany 20, 21, 22, 30, and 43. Elective. Six hours a week. Four quarter hours. Any quarter, by permission.

46. ADVANCED WOOD ANATOMY AND IDENTIFICATION.

Prerequisite: Botany 20. Elective. Six hours a week. Four quarter hours. Spring quarter.

III. ZOÖLOGY

20, 21, 22. ELEMENTARY ZOÖLOGY.

Elective. Six hours a week. Twelve quarter hours. Course 20, fall quarter; Course 21, winter quarter; Course 22, spring quarter; also summer quarters.

23. NATURE STUDY. This course is designed to meet the biology requirement of the two-year curriculum. Its aim is to give a background for the teaching of nature study in the grades. It replaces the former requirement of Zoölogy 20. The course includes a study of the fundamental life processes and of the identification of birds and insects. It is not accepted for Zoölogy 20 or 21 toward a laboratory science requirement.

Required in the freshman year of the two-year curriculum unless Botany 20 is taken. Accepted for Zoölogy 22. Six hours a week. Four quarter hours. Fall and spring quarters.

30, 31, 32. VERTEBRATE ZOÖLOGY. A study of the anatomy, classification, and habits of various classes of vertebrates. Course 30 deals with fishes; Course 31, with amphibians and reptiles; Course 32, with birds and mammals.

Prerequisite: Zoölogy 20, 21. Elective. Six hours a week. Twelve quarter hours. Course 30, fall quarter; Course 31, winter quarter; Course 32, spring quarter.

40. **METHOD IN HIGH SCHOOL ZOÖLOGY.** The course includes methods of teaching zoölogy and also the collection and preparation of material for demonstration and laboratory in high school zoölogy.

Prerequisite: Two years' work in college zoölogy. Required in the senior year in the four-year curriculum in zoölogy. Four hours a week. Four quarter hours. Fall quarter.

41, 42. **PRACTICE TEACHING IN HIGH SCHOOL ZOÖLOGY.**

Prerequisite: Zoölogy 40. Required in the senior year in the four-year curriculum in zoölogy unless Botany 41 is substituted. Five hours a week. Course 41, four quarter hours; Course 42, four quarter hours. Winter and spring quarters.

43, 44, 45. **ADVANCED ZOÖLOGY.** A study of insects. Deals with the classification and ecology of this large and important class. Methods of collection and preparation of specimens are studied. It prepares for teaching biological science in the upper grades or high school.

Prerequisite: Zoölogy 20, 21. Elective. Six hours a week. Twelve quarter hours. Zoölogy 43, fall quarter; Zoölogy 44, winter quarter; Zoölogy 45, spring quarter.

46. **MICROTECHNIC.** Methods and practice in the preparation of microscopic slides of animal tissues. Some histological studies are included.

Prerequisite: Two years of zoölogy and permission of the instructor. Six hours a week. Four quarter hours.

47. **ANIMAL BEHAVIOR.** Theoretical and experimental studies of the reactions of animals to various stimuli.

Prerequisite: Two years of zoölogy and permission of the instructor. Six hours a week. Four quarter hours.

48. **ANIMAL ECOLOGY.** A study of various animal associations and of the effects of environmental conditions.

Prerequisite: Two years of zoölogy and permission of the instructor. Six hours a week. Four quarter hours.

PHYSICAL SCIENCE

PHYSICS

30, 31, 32. **FIRST YEAR OF COLLEGE PHYSICS.** Physics 30, mechanics and heat; Physics 31, magnetism and electricity; Physics 32, light and sound.

Six hours a week. Four quarter hours for each course. Physics 30, fall quarter; Physics 31, winter quarter; Physics 32, spring quarter.

40, 41, 42. METHODS AND PRACTICE TEACHING IN PHYSICS.

Required in the senior year in the four-year curriculum in physics. Five hours a week (Four hours for Course 40). Four quarter hours for each course. Fall, winter, and spring quarters.

43. RADIO. A study is made of the principles underlying radio communication. The course includes a study of some typical circuits used in receiving sets and a detailed study of the function of inductance, capacitance, and resistance in electric circuits. Types of vacuum tubes are discussed.

In the laboratory, electrical measurements of parts and assembled units are made. This includes taking characteristic curves of vacuum tubes.

Prerequisite: Physics 31. Six hours a week. Four quarter hours. Summer quarter.

44. ELECTRICAL MEASUREMENTS.

Prerequisite: Physics 31. Eight hours a week. Four quarter hours. Summer quarter.

45, 46, 47. PHYSICS, LABORATORY. Physics 45, mechanics and heat; Physics 46, light; Physics 47, modern physics.

Prerequisite: Physics 30, 31, 32. Eight hours a week. Four quarter hours for each course. Physics 45, fall quarter; Physics 46, winter quarter; Physics 47, spring quarter.

48. MECHANICS. A standard elementary course in theoretical mechanics. Studies of forces acting on a body; vectors; the laws of motion as applied to physical bodies; moment of inertia; momentum; energy.

Prerequisite: Physics 30 and trigonometry. Four hours a week. Four quarter hours. Fall quarter, even years.

49. HEAT, THEORY. Thermometry, expansion of solids, liquids, and gases. The general gas laws and the kinetic theory. Introduction to thermodynamics.

Prerequisite: Physics 30. Four hours a week. Four quarter hours. Winter quarter, even years.

50. ELECTRICITY AND MAGNETISM, THEORY. Magnets and the magnetic field; the electric field; direct current and magnetic field; alternating current and phase relations; units.

Prerequisite: Physics 31 and trigonometry. Four hours a week. Four quarter hours. Spring quarter, even years.

51. LIGHT, THEORY. A brief review of geometrical optics. Phenomena of light studied in terms of physical optics (light as a wave motion). Optical instruments; spectrometry; interference; and polarized light.

Prerequisite: Physics 32 and trigonometry. Four hours a week. Four quarter hours. Fall quarter, odd years.

52, 53. **MODERN PHYSICS.** A survey of basic experiments and theories of modern physics. Radio-activity; discharge of electricity through gases; X-rays; photo-electricity; the structure of matter and the periodic table; matter and radiation.

Prerequisite: Physics 30, 31, 32, and trigonometry. Four hours a week. Four quarter hours. Winter and spring quarters, odd years.

CHEMISTRY

Note.—Four year-sequences are offered: 1. General inorganic chemistry and introduction to qualitative analysis (30, 31, 32). 2. Qualitative and quantitative analysis (33, 34, 35). 3. Organic chemistry (43, 44, 45). 4. Physical chemistry (46, 47, 48).

Those for whom chemistry is the minor subject should take Chemistry 33, 34, 35 for the second year's work if they expect to teach high school chemistry.

It is best also to have Chemistry 33, 34, 35 before Chemistry 46, 47, 48.

The student's major subject will sometimes decide which of the three year-sequences he should take after the first if he is to have but one more.

30, 31. GENERAL INORGANIC CHEMISTRY. Non-metals.

Elective. Six hours a week. Four quarter hours for each course. Chemistry 30, fall quarter; Chemistry 31, winter quarter.

32. METALS AND INTRODUCTION TO QUALITATIVE ANALYSIS.

Prerequisite: Chemistry 30, 31. Six hours a week. Four quarter hours. Spring quarter.

33. QUALITATIVE ANALYSIS, Continued.

Prerequisite: Chemistry 30, 31, 32. Six hours a week. Four quarter hours. Fall quarter, even years.

34, 35. QUANTITATIVE ANALYSIS.

Prerequisite: Chemistry 30, 31, 32. Six hours a week. Four quarter hours for each course. Chemistry 34, winter quarter; Chemistry 35, spring quarter, even years.

40. THE TEACHING OF CHEMISTRY.

Required in the senior year in the four-year curriculum in chemistry. Four hours a week. Four quarter hours. Fall quarter.

41, 42. PRACTICE TEACHING IN CHEMISTRY.

Required in the senior year in the four-year curriculum in chemistry. Five hours a week. Four quarter hours for each course. Winter and spring quarters.

43, 44. ORGANIC CHEMISTRY.

Prerequisite: Chemistry 30, 31, 32. Six hours a week. Four quarter hours for each course. Chemistry 43, fall quarter; Chemistry 44, winter quarter, every year.

45. FOOD AND PHYSIOLOGICAL CHEMISTRY.

Prerequisite: Chemistry 43, 44. Six hours a week. Four quarter hours. Spring quarter, every year.

46. PHYSICAL CHEMISTRY. A study of the fundamental principles of chemistry. Solutions and colloids are considered.

Prerequisite: Chemistry 30, 31, 32 and Algebra 36. Six hours a week. Four quarter hours. Omitted 1934-35.

47, 48. PHYSICAL CHEMISTRY. Chemical crystallography, electrochemistry, chemical kinetics, and atomic structure are considered.

Prerequisite: Chemistry 46 and Chemistry 33, 34, 35 if possible. Six hours a week. Four quarter hours. Omitted 1934-35.

THE TEACHERS COLLEGE BULLETIN

The Teachers College Bulletin, a sixteen-page monograph, devoted to educational topics, is issued quarterly and distributed in the immediate territory of the College free of charge. The numbers issued in the past six years, exclusive of summer school bulletins and annual catalogues, are:

94. The Use of Modern Poetry with Children, *by Florence E. Gardiner.*

97. Second Printing of Bulletin No. 94.

98. The Training of Teachers at the Eastern Illinois State Teachers College, *by Fiske Allen.*

101. Arithmetic Teachers in the Making, *by E. H. Taylor.*

102. Opportunities for High School Graduates in Public School Teaching in Illinois, *by a Committee of the Illinois Schoolmasters Club.*

105. Thirtieth Anniversary Bulletin, *compiled by Grace Geddes and Anna H. Morse.*

106. Alumni Register, 1900 to 1929, *compiled by Ruth Carman.*

109. Practical Arts at the Eastern Illinois State Teachers College, *by L. F. Ashley.*

110. A Mesophytic Ravine, "Rocky Branch," *by E. L. Stover.*

113. The Junior High School, An Annotated Bibliography, *by F. A. Beu.*

114. The Training of Public School Art Teachers, *by Grace E. Messer.*

117. Trees and Shrubs of the Campus, *by E. L. Stover.*

[Note: The printing of No. 117 has been delayed.]

118. Changes in the Student Body, 1925-1930, *by Ralph Haefner, Emma Reinhardt, F. A. Beu.*

121. Number reserved for bulletin on "The Preparation of High School Teachers of Botany and Zoölogy."

122. Number reserved for "English for Elementary Grades, Part I, The First Four Grades."

125. Number reserved for bulletin of "The Teachers College High School."

126. Number reserved for "The Alumni Register, 1900-1934."
